GUAM: MERIZO

Merizo: The statue of Santa Marian Kamalen, displayed in the Dulce Nombre de Maria Cathedral Basilica in Hagåtña was found in the waters off of Merizo, one of Guam’s most southern villages, about 300 years ago. According to local legend a fisherman saw the statue of the Virgin Mary being carried by two golden crabs between Merizo and Cocos Island and brought it ashore. Catholics on Guam hold a procession every year on December 6 around Hagåtña to honor Mary and the statue, the patron saint of Guam.
