

GUAM VISITORS BUREAU

Russia Visitor Tracker Exit Profile

FY2015 DATA AGGREGATION

Prepared by: QMark Research

Information contained herein is the property of the Guam Visitors Bureau.

The use of this information, in part or in whole, shall require written permission from the Guam Visitors Bureau.

Background & Methodology

- All surveys were partially interviewer administered, as well as self-administered. Upon completion of the surveys, QMark's professional Japanese speaking interviewers double-checked each questionnaire for consistency and completeness, while the respondent is present.
- A total of **601** departing Russian visitors were randomly interviewed and was coordinated with the Russian tour agents to be interviewed by QMark interviewers before departing the island.
- The margin of error for a sample of **601** is +/- 4.00 percentage points with a 95% confidence level. That is, if all Russian visitors who traveled to Guam in the same time period were asked these questions, we can be 95% certain that their responses would not differ by +/- 4.00 percentage points.

OBJECTIVES

- To monitor the effectiveness of the Russian seasonal campaigns in attracting Russian visitors, refresh certain baseline data, to better understand the nature, and economic value or impact of each of the targeted segments in the Russian marketing plan.
- Identify significant determinants of visitor satisfaction, expenditures and the desire to return to Guam.

SECTION 1 **PROFILE OF RESPONDENTS**

Marital Status - Overall

- Majority of Russian visitors are married.

MARITAL STATUS

Age - Overall

- The average age of the respondents is 40.61 years of age.

AVERAGE - AGE
