

GUAM VISITORS BUREAU

Taiwan Visitor Tracker Exit Profile

FY2016

2ND QTR. (JAN~MAR 2016)

Prepared by: QMark Research

Information contained herein is the property of the Guam Visitors Bureau.

The use of this information, in part or in whole, shall require written permission from the Guam Visitors Bureau.

Background & Methodology

- All surveys were partially interviewer administered, as well as self-administered. Upon completion of the surveys, QMark's professional Japanese speaking interviewers double-checked each questionnaire for consistency and completeness, while the respondent is present.
- A total of **150** departing Taiwan visitors were randomly interviewed at the Guam A.B. Wonpat International Airport's departure and waiting areas.
- The margin of error for a sample of **150** is +/- 8.00 percentage points with a 95% confidence level. That is, if all Taiwan visitors who traveled to Guam in the same time period were asked these questions, we can be 95% certain that their responses would not differ by +/- 8.00 percentage points.

OBJECTIVES

- To monitor the effectiveness of the Taiwan seasonal campaigns in attracting Taiwan visitors, refresh certain baseline data, to better understand the nature, and economic value or impact of each of the targeted segments in the Taiwan marketing plan.
- Identify significant determinants of visitor satisfaction, expenditures and the desire to return to Guam.
