Destination Updates
Covid-19 Vaccination Update

COVID-19 Mass Vaccination Clinics Scheduled to Resume March 8-13 at UOG Fieldhouse

In anticipation of vaccine shipment arriving this week, COVID-19 mass vaccination clinics are scheduled to resume Monday, March 8 to Saturday, March 13, at the UOG Fieldhouse. Clinics are scheduled from 10 a.m. to 5:30 p.m. and will only accept those due for their second dose of the Pfizer-BioNTech or Moderna vaccine. Eligible residents are advised to schedule an appointment online via Eventbrite at the link provided above or click here.

If scheduling an appointment is not possible, walk-ins will be accepted at a limited rate of 15 per hour. Walk-ins wishing to avoid longer wait times are discouraged from lining up prior to the 10 a.m. opening, and are asked to expect reasonable delays.

No first doses of either vaccine will be administered. Clinics administering first doses are scheduled to start Tuesday, March 16.

Upon arrival, individuals 70 years and older will be sent to the front of the line. Please bring a digital or hard copy appointment confirmation, a photo ID, and proof of Guam residency (Guam Driver's License, Guam ID, Green Card, US or FSM Passport, H1B or H2B visas for skilled workers). Those due for their second dose are reminded to bring their COVID-19 immunization card. This ensures quicker processing and proper documentation.

Short-term deferral of the second dose will not decrease the effectiveness of the COVID-19 vaccine, nor will affected individuals be required to restart the vaccination series. According to the U.S. Centers for Disease Control and Prevention (CDC), the second dose should be administered as close to the recommended interval as possible. The CDC further states that if it is not feasible to adhere to the recommended interval and a delay in vaccination is unavoidable, the second dose of Pfizer-BioNTech and Moderna COVID-19 vaccines may be administered up to 6 weeks (42 days) after the first dose.
The Guam Department of Revenue and Taxation (DRT) issued its third announcement that all Business Privilege Tax Returns are required to be filed electronically, beginning with tax filing for the month of February 2021. Information below is provided to all current electronic filers and also for those who must register to become an electronic filer.

Current Electronic Filers:
• All must re-register with GuamTax.com. DRT recently enhanced the log-in process that will require all current users to re-register beginning March 1, 2021.

Registration Information
• Information can be found at https://www.guamtax.com/help/index.html.
• Registration requirements will be changing on March 1, 2021.

Online Payments:
• To pay online, more information can be found at https://pay.guam.gov/pg/FAQs.aspx. The additional fees are stated and in addition to the total.
• As an option to all E-Filers who decide on making their tax payments in person (not electronically):
  • Please proceed to make payment to any Treasurer of Guam location, and
  • Provide two (2) copies of the e-filed returns.
  • As a reminder, Collections Branch at the Department of Revenue and Taxation will no longer accept payments on e-filed tax accounts.

Benefits on Electronic Filing:
• Performs automatic calculations of taxes owed based on data entered
• Maintains e-filing history so you can access your e-filed GRT returns at your convenience
• Prevents duplicate filing
• View and print copies of your e-filed returns

All Taxpayers must electronically file their tax returns beginning with tax period February 2021 (due to be filed on or before March 20, 2021). An exemption application for this mandate will be made available soon at DRT’s Barrigada location. DRT will only grant exemptions due to extreme hardship.
**MARKETS AT-A-GLANCE**

**JAPAN**

**COVID-19 News**
- Number of new cases in Japan have decreased by 84%
- Hospital bed occupancy has declined by 50%
- Total of 207 COVID-19 variant cases confirmed; details shown in appendix
- Number of new daily cases in Tokyo remain below 500
- Household infections in Tokyo decreased by 82% compared to the first half of January
- Transmission route in Tokyo: 72% at workplace and 91% at dining establishment (restaurants/bars)

**Market Intelligence**
- Update on tour package cancellation shown in appendix
- Jeju Air: 7C3174/3173: suspended until March 27

**SOUTH KOREA**

**COVID-19 News**
- Daily new coronavirus cases remained in the 300s due to fewer testing over the weekend, as the country’s schools opened a new semester amid lingering concerns over potential upticks
- Social distancing measure has been extended until March 14
- Incheon Airport launched rapid COVID-19 PCR test from March 1st, cutting down the process from seven to two/four hours
- Plans to vaccinate high-risk health care workers at hospitals and people at elderly care facilities in the first quarter; immunize 70% of the population by the third quarter; and achieve herd immunity by November
- Korea Disease Control and Prevention Agency plans to issue a blockchain-based COVID-19 vaccination certificate

**Market Intelligence**
- March total outbound air seat capacity estimated to be 1,512 pax
- Interpark Tour launched a new overseas hotel promotion in Guam, providing popular hotels at reasonable prices and conditions
- Thailand’s golf isolation is experiencing ups and downs as two countries’ quarantine guidelines have been strengthened
- Travel trend after COVID-19 has changed from ‘entertainment’ to ‘healing’

**TAIWAN**

**COVID-19 News**
- First batch of COVID-19 vaccine expected in April
- Taiwan eases restrictions on entry for foreign visitors
- Centers of Disease Control’s latest list of risk categories for countries/regions shown in appendix; short-term business travelers from these low or low-to-moderate risk countries will be able to apply for shorter quarantine periods
- Taiwan CECC is considering allowing Taiwanese travelers to travel to Palau

**DETAILS ARE FOUND IN THE APPENDIX**
APPENDIX

As of March 4, 2021 and may be subject to change.
JAPAN COVID-19 NEWS

HIGHLIGHT NATIONWIDE

- Number of new cases in Japan have decreased by 84%
- Tokyo -84%; Osaka -86%; Aichi -87%; Fukuoka -88%
- Vaccination of about 28,000 healthcare workers were completed on February 26
- Hospital bed occupancy has declined by 50% in the country
- Number of severely ill patients have decreased by more than 2,200 compared to the first half of January
- Number has declined nationwide in the last 22 days since January 18
- A total of 207 cases of the coronavirus variant have been confirmed

COVID-19 VACCINATION

- The government has announced that the prefecture distribution amounts will be conducted in from March 1st to inoculate approximately 4.7 million healthcare workers.
- A total of 1,000 boxes are expected to be shipped to each prefecture.
- Each box contains 195 containers that can collect up to 6 doses of vaccines, when converting the number of inoculations, it will be up to 1.17 million.

DISTRIBUTION PLAN:
- 500 boxes will distribute in the first week of March (March 1 to 7).
- Another 500 boxes will distribute in the second week of March (March 8 to 14).

SOUTH KOREA
KOREA COVID-19 NEWS

HIGHLIGHT
South Korea’s daily new coronavirus cases remained in the 300s for the third straight day Tuesday due to fewer testing over the weekend, as the country’s schools opened a new semester amid lingering concerns over potential upticks.

While the latest figures show a decrease and the country launched a mass vaccination campaign on February 26, the country extended the current social distancing rules for another two weeks.

INCHEON AIRPORT LAUNCHED RAPID COVID-19 PCR TEST
Incheon Airport launched rapid COVID-19 PCR test from March 1st, cutting down the process from seven hours to two or four hours. Negative results from rapid PCR tests are accepted by many countries except for some countries like China and Thailand.

Also, plans to introduce a smart quarantine app for passengers at Incheon Airport as well as kiosks to print out negative coronavirus results.
### SOUTH KOREA RAISED SOCIAL DISTANCING MEASURE (EXTENDED UNTIL MARCH 14)

</table>

Additional Measure (Jan 3 – MAR 14)
Gathering of five (5) or more people are banned.

The Seoul metropolitan area is under Level 2 distancing -- the third highest in a five-tier system -- and other areas at Level 1.5 until March 14. Also, gathering of five (5) or more people are banned until the same period, March 14.
SOUTH KOREA HAS OFFICIALLY STARTED COVID-19 VACCINATION

On February 26, COVID-19 vaccines made by AstraZeneca started to be distributed at 1,915 public health center and nursing homes across the country and more than 5,000 people would be receiving the vaccines all at the same time.

More than 1 million doses of the AstraZeneca vaccines are expected to be sent to the public health center and nursing homes through February 28.

COVID-19 VACCINE PROCUREMENT STATUS (TOTAL: 79 MILLION)

**AstraZeneca**
- Expected arrival: Q1 – Q3
- No. of vaccine: 13 million
- Vaccine Administered: 20,613 pax

**Pfizer**

KOREA COVID-19 NEWS

VACCINATION PLAN

- Korean government plans to vaccinate high-risk health care workers at hospitals and people at elderly care facilities in the first quarter.

- The plan is to immunize 70% of the population by the third quarter, and achieve herd immunity by November.

<table>
<thead>
<tr>
<th>Quarter</th>

<tr>
<td>3rd Quarter</td>
<td>33,250,000 pax</td>
</tr>
<tr>
<td>4th Quarter</td>
<td></td>
</tr>
</tbody>
</table>

Medical professionals treating COVID-19 patients at hospitals aged below 65 (Feb 26~)
Medical workers at general hospitals (Mar~)
High-risk health care workers (Mar~)

Vaccine Administered 21,177pax (0.041%) (as of March 1)

Individuals 65 years and older (May~)
Other high-risk facilities for elders and disabled health care workers
Health care workers at hospital (May~)
Essential workers incl. police officers and firefighters

Chronic patient Workers at education and nursery facilities Individuals aged 19-49

Vaccination: 70% of Population

Start second doses to those who received dose one
Those who are not vaccinated

Pregnant women and children under 19 are excluded from vaccination

The Korea Disease Control and Prevention Agency plans to issue a blockchain-based COVID-19 vaccination certificate.

Although there must be a standard set by international organizations such as World Health Organization (WHO) or United Nations (UN) for the vaccine passport to be used interchangeably, KDCA will keep developing domestic blockchain-based vaccination certificate.

ADVANTAGE
- Prevention of data forgery and modulation
- Prevention of personal information leakage
- Convenient verification method (COVID-19 negative result & vaccination)

PROSPECT
- Can be used as so-called “Vaccine Passport”
- Cannot use exclusively -> Cooperation with other countries & WHO
- Will be introduced in “application” form

OVERSEAS CURRENT STATUS
- EU: discussion ongoing about the introduction of vaccine passport
- Iceland: issued COVID-19 vaccination certificates in January 2021
- Denmark, Spain, Sweden, Hungary: plans to issue soon

As of Mar 2 - subject to change

* As the effectiveness of vaccines is unclear and the supply of vaccines is variable at the moment, WTO opposed to let governments and travel industries introduce vaccination passport as an entry requirement.

2021 PROSPECT
Travel trend after COVID-19 has changed from ‘entertainment’ to ‘healing’ and therefore, the popularity of strictly-controlled area over the environment is expected to continue.
TAIWAN COVID-19 NEWS

FIRST BATCH OF COVID-19 VACCINE EXPECTED IN TAIWAN BY APRIL

A total of 4.76 million doses of COVID-19 vaccine Taiwan has secured through the global vaccine-sharing initiative COVAX are expected to become available by April, Premier Su Tseng-chang said Friday.

The vaccines will come from manufacturers such as Oxford University and British-Swedish pharmaceutical giant AstraZeneca, as well as Germany-based BioNTech (BNT), Su said.

TAIWAN EASES RESTRICTIONS ON ENTRY OF FOREIGN VISITORS

Taiwan will partially lift restrictions on the entry of foreign visitors starting from March 1, as well as allow transit flights through Taiwan Taoyuan International Airport, the Central Epidemic Command Center (CECC) said Wednesday.

Under the new policy, foreign nationals without residency permits will be allowed to enter Taiwan for reasons excluding tourism, as long as they receive advance permission from Taiwan’s overseas representative offices, the CECC said.

The vaccine will be part of 20 million doses obtained by the government so far -- which will include 5.05 million doses from American pharmaceutical company Moderna Inc. and 10 million more doses from. They are likely to become available in the second quarter of this year, he said.

The latest list of the risk categories for countries/regions is as follows:

**Low-risk countries/regions:**
- New Zealand, Macao, Palau, Fiji, Brunei, Laos, Nauru, East Timor, Mauritius, the Marshall Islands, and Bhutan

**Medium-risk countries/regions:**
- Australia, Singapore, Vietnam, and Cambodia

Confirmed COVID-19 CASES: 958
2.4% active (23)

AS OF MAR 4, 2021
**TAIWAN COVID-19 NEWS**

**SHORTENED QUARANTINE FOR BUSINESS TRAVELERS FROM CERTAIN COUNTRIES**

- Short-term business travelers from countries deemed to be at low or low-to-moderate risk of COVID-19 will be able to apply for shorter quarantine periods again from March 1, the Central Epidemic Command Center (CECC) said Wednesday.
- To qualify, business travelers must enter from a country deemed to be at low or low-to-moderate risk of COVID-19 and they cannot have traveled to any other country or region in the 14 days prior to entering Taiwan.
- The travelers must provide proof issued by a legally registered Taiwanese company that they are indeed in Taiwan to conduct business, a planned itinerary of their trip, a COVID-19 prevention plan, and a negative COVID-19 test result issued within three days of their departure for Taiwan.

**TRAVEL CORRIDOR BETWEEN TAIWAN AND PALAU PLANS TO BEGIN IN APRIL**

- The representative of Pristine Paradise Palau shared that the “travel corridor” that is likely to take place in April Taiwan and Palau.
- In consideration of having 0 confirmed case on Palau, Taiwan CECC is considering allowing Taiwanese travelers to travel to Palau.
- Taiwanese travelers must take PCR test when leaving and returning to the country.
- Flights are set to fly 2 times a week at the moment.
- Taiwan CECC is still drafting the quarantine policy for returning travelers, thus, details and actual time to initiate the corridor is still to be determined.
