The Department of Public Health and Social Services (DPHSS) tested 169 individuals for COVID-19 on Saturday, May 2, 2020 with conclusive results. Two tested positive through DPHSS and 167 tested negative for SARS-CoV-2. The results include samples from clinics,

hospitals, the quarantine facility, and samples from the COVID-19 expanded testing at the Agat Senior Center and the Hemlani Apartments in Harmon. DPHSS has targeted areas where infection may occur due to lack of access to health care, and densely populated apartment complexes.

Everyone who has been swabbed for the COVID-19 test can expect to be notified of test results from either their provider if samples were taken in a clinic or hospital or by DPHSS health care staff if samples were taken during the DPHSS community expanded testing.

The DPHSS overall count also includes probable cases of COVID-19 and confirmed positive cases tested by the Naval Health Research Center (NHRC) in San Diego, the U.S. Naval Hospital (USNH) Guam, the Guam Memorial Hospital Authority (GMHA), Guam Regional Medical City (GRMC), the Guam National Guard (GUNG), and Diagnostic Laboratory Services (DLS).

To date, 148 cases have been confirmed through COVID-19 testing provided, with 5 deaths and 131 released from isolation. When a patient is released from isolation, he or she is no longer considered infectious. According to the U.S. Centers for Disease Control and Prevention (CDC) research and published guidelines, a patient is released from isolation after at least 72 hours have passed without a fever or additional respiratory issues and at least seven days have passed since symptoms first appeared. All remaining cases are in isolation.
