End of Day Results: Zero Test Positive for COVID-19 by DPHSS, 22 Confirmed Cases from DoD; Profiles of Confirmed Cases

COVID-19 test results are reported from multiple labs at varying times of the day. The cumulative total from all labs will be reported on a nightly basis, unless unavailable.

To date, there have been a total of **222** confirmed cases of COVID-19 with **5** deaths, **173** released from isolation, and **44** active cases. Of those cases **180 are classified as civilians**, and **42 are military service members**, inclusive of 22 cases confirmed by the Department of Defense (DoD) today.

The Department of Public Health and Social Services (DPHSS) tested two individuals for COVID-19 on Saturday, June 20, 2020 with conclusive results. Zero tested positive through DPHSS and two tested negative for SARS-CoV-2.

Twenty-two additional cases tested positive for COVID-19 through DoD. Twenty were identified through contact tracing among service members in a unit deployed to Andersen Air Force Base (AFB), bringing the total cases associated with this unit to 35.

Two cases were identified through screening at Andersen AFB and were healthcare workers who reported contact to cases of COVID-19.

All service members assigned to the unit were rapidly placed in isolation and have since been relocated to Andersen AFB where they are under medical observation in accordance with Centers for Disease Control and Prevention (CDC) protocols. All members of the deployed unit have been tested with conclusive results. All positive cases were placed under mandatory isolation, and all other military members associated to this unit were placed under mandatory enforced quarantine on Andersen AFB. Andersen AFB, working with DPHSS, continues to conduct thorough and complete contact tracing.

Andersen AFB are complying with all DoD travel restrictions and clearance processes and are committed to ensuring the health and safety of all service members, civilians, families and the community.
