INDUSTRY RECOVERY UPDATE
AS OF JULY 10, 2020
The Guam Visitors Bureau (GVB) is proud to announce that former Gov. Carl T.C. Gutierrez will remain as GVB President and CEO, while Dr. Gerry Perez will continue serving as GVB Vice President. Both Gutierrez and Perez were initially appointed in May by the GVB Board of Directors as the Bureau’s interim leadership team. The board unanimously voted at their July 9th meeting that the gentlemen should continue to lead GVB in a permanent role.

“The Board of Directors is pleased that former Gov. Gutierrez and Dr. Perez have agreed to continue leading our tourism industry, especially as Guam moves forward with recovery efforts from COVID-19,” said GVB Board Chairman P. Sonny Ada. “Their combined years of leadership and industry experience are what we need now. I thank them for their commitment to GVB and to our island at this crucial time.”

Prior to GVB, Gutierrez was hand-selected by Gov. Lou Leon Guerrero to be the Special Advisor for Economic Development, National, and International Affairs for the Government of Guam. He served two terms as Governor of Guam from 1995-2003.

“I want to thank Governor Leon Guerrero, Lt. Governor Tenorio and the GVB Board of Directors for this opportunity to rebuild our tourism industry and diversify our economic base,” said former Gov. Gutierrez.

Dr. Perez also brings a wealth of tourism knowledge and experience back to the Bureau. He is an adjunct professor at the University of Guam School of Business and Public Administration. He served as president of DFS Guam and spent 23 years in travel retailing, business development, and destination marketing before serving as GVB’s general manager from 2005-2011.

“Tourism is Guam’s largest ‘export’ industry and thousands of island residents work hard to deliver a unique destination experience,” said Perez.

“I am honored to return to GVB and to be part of a dynamic and innovative team that is retooling tourism for the new paradigm of technology and health safety protocols.”

- Dr. Gerry Perez

“i will continue to work with this administration and industry partners to retool and diversify our economy in the new normal of a post COVID-19 environment.”
- Former Gov. Carl T.C. Gutierrez
DPHSS SHARES UPDATED HIGH RISK AREAS

NEW POLICY ANTICIPATED FOR TRAVELERS ENTERING GUAM

The Department of Public Health and Social Services released an updated list of high-risk areas (DPHSS Guidance Memo 2020-11 Revision 3) as it relates to quarantine requirements for travelers entering Guam by air or sea who may be subject to quarantine for a period of 14 days.

High Risk areas will be determined by a calculated COVID-19 Area Risk (CAR) score, which primarily assesses an area’s recently calculated Case Doubling Time and Test Positivity Rate. Under these new guidelines, residency status will not determine the level of quarantine or testing required. A pre-arrival negative PCR test is necessary to determine the quarantine location and eligibility to qualify for a shortened quarantine length. For more information, click here.

For the latest information on COVID-19, visit dphss.guam.gov or guamrecovery.com. For inquiries on COVID-19, contact 311 through a local number, or call the Joint Information Center at (671) 478-0208/09/10.

Low-risk areas for Guam – Australia, New Zealand, South Korea, Japan, Taiwan, FSM, CNMI, and Hawaii – will have different restrictions when Guam reopens. A travel bubble, or a travel bridge, with Hawaii is under consideration by our island’s leaders.
Would a visitor coming from High Risk Area be quarantined at the approved quarantine facility?
If a visitor coming from a high-risk area presents a negative Polymerase Chain Reaction (PCR) COVID-19 test taken no more than seventy two (72) hours prior to arrival on Guam, the visitor may self-quarantine at their choice of residence. If the visitor does not have a negative PCR test on hand, the visitor will be taken to a government quarantine facility.

Would a person who is only transiting at Guam airport be subjected to the quarantine for 14 days?
A traveler that is transiting through Guam can remain in designated portions of the airport facility while awaiting connecting flights less than 13 hours. If a traveler chooses to step outside the airport between their connecting flight, the traveler will be taken to a government quarantine facility until it is time for the traveler to leave Guam. If the traveler has a negative PCR test result, they may leave the airport and go to their lodging at their expense.

Is the Negative PCR Test document issued in Korea, Japan or Taiwan recognized in Guam?
A negative PCR test document issued in Korea, Japan or Taiwan will be recognized, but it must be in English.

Is the Negative PCR Test document valid in the Korean, Japanese or Taiwanese language? If not, should I notarize the document?
The negative PCR test document must be in English for it to be recognized at the Guam airport.

How about if a person has another country’s visa but came from a non-high-risk location?
As long as the traveler’s visa is valid to travel in the United States, that traveler will still follow the quarantine procedures set in place for Guam.

Are residents and non-residents able to use public transportation from the airport to home/self-quarantine facility?
If a non-resident or resident traveler is coming from a low risk area, the traveler may use public transportation to get to their residence where he or she will home/self quarantine.

If a non-resident or resident traveler that was done less than 72 hours prior to arrival in Guam, the traveler may use public transportation to get to their residence where he or she will home/self-quarantine.

If a non-resident or resident traveler that was done less than 72 hours prior to arrival in Guam, the traveler may use public transportation to get to their residence where he or she will home/self-quarantine.

If a non-resident or resident traveler that was done less than 72 hours prior to arrival in Guam, the traveler may use public transportation to get to their residence where he or she will home/self-quarantine.

If a non-resident or resident traveler that was done less than 72 hours prior to arrival in Guam, the traveler may use public transportation to get to their residence where he or she will home/self-quarantine.

If a child is a Korean, Japanese or Taiwanese national but the parents are another national from a high-risk area, would the child be quarantined in the facility separately without parents? If so, what would the procedure be?
No, the family will be able to quarantine together.

If the wife is a Korean, Japanese or Taiwanese national but the husband is another national from a high-risk area, would the spouse be quarantined in the facility separately? If so, what would the procedure be?
No, the family will be able to quarantine together.
UPDATED QUARANTINE PROTOCOLS FOR TRAVELERS FROM GUAM’S SOURCE MARKETS

WHILE QUARANTINING IN GUAM

Tourists originating from a non COVID-19 high risk area are subjected to home/self-quarantine. Are they able to stay at any hotel or accommodation? Travelers coming from a high risk area can only stay at their hotel or accommodation if they have a negative PCR test that was done less than 72 hours prior to their arrival to Guam.

Are untested Koreans, Japanese or Taiwanese (low risk areas) quarantined in government approved facilities? What happens if a traveler prepares a flight back to Korea, Japan or Taiwan during the quarantine period? Are they able to return to the country?
If a traveler is coming from a low risk area to Guam, the traveler may stay at the hotel or accommodation to home/self-quarantine.

A traveler may return to their home country at any time during their quarantine period.

Who will cover the cost of the stay of the quarantine and test?
A non-resident traveler will have to pay for the cost of quarantine. At this point in time, the PCR test is paid for by the local government, but this is subject to change at any time.

How much does it cost for facility quarantine and test?
The cost to stay at a government quarantine facility ranges from $110-$140 a night. This is subject to change at any time.

What should I do if I develop symptoms while under quarantine?
A traveler that begins to develop symptoms consistent with COVID-19 under quarantine should contact public health officials immediately.

WHILE STAYING IN GUAM

How will the symptoms be checked and reported after being released from quarantine early (after Negative Post-Arrival PCR Test)?
If the traveler experiences symptoms consistent with COVID-19 while staying in Guam, they must contact the Guam Department of Public Health and Social Services.

Who will cover the cost of treatment if I tested positive for COVID-19 on Guam?
The traveler will cover the cost of treatment.

Is there any possibility of policy change if the number of patients in Guam decreases?
The current quarantine procedures and policies are subject to change at any time.

How long will the new policy be implemented? (When will it be ended?)
The current quarantine procedures and policies can change at any time. Proper notification will be disseminated should a change occur.

When will the High-Risk Area list be updated?
The local government's high-risk area list will be regularly updated on the Department of Public Health and Social Service's website: https://dphss.guam.gov/.
GDOL RELEASING FOURTH PUA BATCH

The Guam Department of Labor announced on July 9 that another $21 million will be released for Pandemic Unemployment Assistance claims. This fourth batch is expected to hit bank accounts early next week, paying out cleared unemployment claims and weekly certifications through June 16.

With this fourth batch, total relief funds distributed will be about $141 million, including almost $11.6 million going to taxes. The Department has also implemented additional fraud prevention measures into the program. With these features in place, Labor aims to free up PUA staff to focus on customer service, help people file claims and answer questions.

“I’ve heard the concerns of the people who are having difficulty getting through to 311 due to the high volume of calls and my limited staff,” said Labor Director David Dell’Isola. “We are working diligently to focus on the needs of the people and help them understand the program. We are focusing on getting millions of pandemic relief into the hands of our people while also protecting them from criminal activity.”

The U.S Department of Labor and the FBI have also announced measures to protect people against identity theft and false unemployment claims. There have been cases of fraud in several states where fraudulent unemployment applications have been submitted online, according to a release from the FBI. A variety of techniques have been used to steal identities. These include cold calling, email phishing schemes, hacking and more. Many victims do not even realize there has been an information breach.

“The administration and I are working closely to ensure the integrity of this program is a top priority,” said Department of Labor Director David Dell’Isola. “We will continue to work together to get our people paid out while also protecting them against identity theft. We have found cases of identity theft and fraudulent claims on Guam.

For more information on the unemployment assistance programs, call 311, 735-0527 or 735-0532 on weekdays. For login issues, email webadmin@dol.guam.gov. For claim or weekly certification issues, email pua.hotline@dol.guam.gov.
The University of Guam invites the community to utilize its newly developed Guam Recovery web portal (www.guamrecovery.com), a free, one-stop resource to assist with a safer, more efficient reopening of Guam’s economy. The site, built in collaboration with tourism stakeholders, consolidates relevant and up-to-the-minute information from official sources.

“As COVID-19 caused major disruptions to every aspect of life on the island, we recognized there was an overwhelming flood of information from countless sources that needed to be curated to benefit businesses and the community,” said Annette Tajeron Santos, dean of UOG’s School of Business and Public Administration, who is leading the Guam Recovery working group along with John J. Rivera, director of the university’s Regional Center for Public Policy.

The portal curates timely news about the pandemic status in Guam, travel requirements for Guam and source markets, reopening guidelines, sanitation and workforce information, and the economy. When the island transitions from reopening to recovery, the portal will develop into a communications center, where news is disseminated and the community can request assistance and provide feedback and ideas.

“Residents and visitors have many concerns about the health, safety, and economic situation on the island,” Santos said. “We must rise to meet the global industry standards so we can confidently say that we are a safe destination. In the end, the best investment we can make is to become a destination where our residents and visitors feel safe enough to enjoy themselves and return often.”

“When business, education, and community leaders come together for the benefit of our people, we see good things happen. While we have many great resources of information available and have a team of experts working to get all relevant information out to the public, the guamrecovery.com website will surely help to simplify that process for many who need information during this critical period and as we work toward the recovery of our island from COVID-19.” - Gov. Lou Leon Guerrero
APPLY FOR YOUR BUSINESS’S SAFE TRAVELS STAMP AND EARN GLOBAL RECOGNITION

Businesses can join for free

GVB encourages all businesses to implement the health and hygiene protocols outlined by The World Travel & Tourism Council (WTTC). The Guam Airport has taken the lead and submitted its application to participate in this program. Visit https://wttc.org/COVID-19/Safe-Travels-Global-Protocols-Stamp and ensure that your existing business protocols are aligned with the respective WTTC Global Protocols.

The protocols applicable to your business can be viewed and downloaded here: https://bit.ly/WTTCGlobalProtocolsGVB.

Some businesses may not fit within a single industry protocol identified by the WTTC. There may be overlaps in the protocol as this is meant to be used as a guide and not to replace current protocols.

Benefits:

• Global recognition for your business and Guam.
• Elevate island’s businesses to meet safety, health, and hygiene protocols.
• Promote a “Safe Travels” experience for residents and visitors.

For questions regarding this effort, please contact Gabbie Franquez at gabryel.frandez@visitguam.org or by calling 646-5278. GVB will be calling GVB members and stakeholders to discuss the program’s application process.

HOW TO APPLY

Once protocols are aligned, click the link to start the quick four-step application process: https://wttc.org/COVID-19/SafeTravels-Stamp-and-Assets

1. Input your business’ information in the required four fields (Name, Email, Organization, & Website).
2. Agree to WTTC’s Terms and Conditions by filling out the form located on the bottom of the webpage.
3. After submitting the form, you will be redirected to an online folder with the Safe Travels Stamp template. Add your logo in the white square of the template.
4. Add the stamp to your website, location, emails, etc.
Despite the postponement of the #GUAM Island Pride Beautification Event, businesses, organizations, and individuals came together to show their island pride and safely performed cleanups around the island. We applaud their determination to make Guam a better, cleaner and safer place to live, work and visit!

Stay tuned, a new cleanup date will be announced soon!
TOURISM CHAMPIONS

We celebrate our Tourism Champions:

- Islandwide Beautification Task Force
- United Airlines
- Cost-U-Less
- Guam Military Affairs
- Guam Environmental Protection Agency
- OGG Facilities Team
- Department of Public Works
- Department of Parks and Recreation
- Cafe Gudcha
- Steel Athletics

GUAM EPA
We asked for your Guam sunset moments, and you delivered some of the most stunning sunset shots we’ve ever seen. Guam has many talented photographers – professional and enthusiasts – who have reminded us time and time again how fortunate we are to live on this beautiful island that we call home. Let’s respect, cherish and protect our island’s natural resources. Thank you to those who regularly participate in our online callouts. Your posts help us to share the island’s beauty with the world.

Cover Photo by Victor Consaga

Thank you to Guam photographer Victor Consaga from Consaga Visual Arts for this week’s cover photo. Victor is well known for his spectacular sunset photos and completed a series of sunset photos during the COVID-19 pandemic as a creative way to document the time. He is a freelance photographer and instructor who also specializes in portrait and wedding photography. Find Victor online at victorconsaga.com or engage with him on Facebook and Instagram.

WE ARE GUAM - WE ARE SAFE!

Share your business protocols and safety measures with us!

GVB is working on communication tools to showcase Guam is ready to welcome visitors. The goals of the content are:

• Showcase what Guam is doing to prepare for visitors to arrive
• Provide reassurance to those concerned about traveling to Guam
• Highlight Guam communities already implementing proper processes and protocols

How to be featured:
Be sure to TAG Guam Visitors Bureau’s official Facebook page or Visit Guam USA’s Instagram page on your posts to give us permission to share!

TO PARTICIPATE, SEND YOUR SAFETY MEASURES TO HAFAADAI@VISITGUAM.ORG
SUBMIT YOUR GUAM VIDEOS!

Share a moment with us! GVB is looking for video content to feature on various social media and digital platforms.

Here’s what we’re looking for:
• Video tours of the island or business
• Beauty and nature shots of Guam
• Frontline workers and community members helping each other during the pandemic, making masks, dropping off food, assisting with protective gear
• Employees working together
• Charitable events
• Guam clean-ups at the beach, park or even in your own neighborhood!

How to be featured:
Be sure to TAG Guam Visitors Bureau’s official Facebook page or Visit Guam USA’s Instagram page on your posts to give us permission to share!

MARKETS AT-A-GLANCE

JAPAN

1. COVID-19 News
   Surge of new cases cause fear of another state of emergency.

2. Airline Update
   Total air seat capacity forecast for July to December 2020 is 253,373 (1,357 flights).

3. Travel Trade
   Most package tours resume Aug 16.

4. Other News
   • Travel insurance, covering coronavirus, may cost from ¥6,970 (3 days) up to ¥11,390 (7 days).
   • Government plans to establish more PCR test centers.
   • Travel restrictions inbound and outbound provided in appendix.
   • Guam featured in JATA newsletter.
   • 1183% increase in news mentions of Guam Tourism Board.

Details are found in the appendix.

SOUTH KOREA

1. COVID-19 News
   Daily new infections surpassed 60 for three straight days.

2. Airline News
   • Air international travel decreased 98% for Q2, with domestic travel dropping lesser at 63.4%.
   • Total outbound air seat capacity for July reduced to 520 seats (Jin Air and Air Seoul).

3. Travel Trade
   • Sharp decline in travel caused 389 travel agencies to shut down.
   • Travel demand low due to 14-day quarantine measure upon returning.

4. Social Media
   In June, had 85,815 total impressions on SNS platforms.

TAIWAN

1. News
   • Scoot resumes Singapore-Taiwan flights.
   • Taiwanese not required to self-isolate for 14 days upon entry in England.
   • Taipei Economic and Cultural Office in Guam to reopen.

2. PR & Social Media
   • GVB Taiwan continues to build travel trade relations.
   • Consumers have been actively interacting on social media.
UNDERSTANDING TRAVEL DISINCENTIVES

A recent GVB travel trade survey, which began on July 8, with Japan, Korea & Taiwan (58 responses), produced the following insight:

1. Will a destination requiring testing prior to travel be a deterrent?
   • Yes (94%)
   • No (8%)

2. Will consumers be willing to pay for the required test?
   • No (59%)
   • Depends on price (34%)
   • Yes (8%)

3. Is there interest in international travel to a nearby island resort destination?
   • Yes (96%)
   • No (4%)

COMMENTS BY COUNTRY:

JAPAN: Hard to find test lab, cost $450 plus $100 for certificate and more than 72 hours for PCR results. Very strong push for domestic travel and Okinawa.

KOREA: Testing not cheap and consumers not willing to pay for tests. Family groups will be reluctant to travel. Travel interest is increasing especially for resort destinations. Short distance travel is preferred over long-haul destinations. Consumers asking about nearby islands, Guam, and Saipan.

TAIWAN: No comments noted.

### Capacity Forecast: Capacity July to December 2020

- **July:** 1,890
- **Aug:** 34,623
- **Sep:** 42,542
- **Oct:** 50,930
- **Nov:** 67,620
- **Dec:** 69,874

### Capacity Forecast: Flight Times July to December 2020

- **July:** 15
- **Aug:** 209
- **Sep:** 260
- **Oct:** 293
- **Nov:** 330
- **Dec:** 341
TRAVEL INSURANCE
Many insurance companies are expanding the coverage of new coronavirus.

Case 1:
Insurance is applied if the traveler is infected with the new coronavirus during travel and then go to the hospital within 3 days after returning home and the treatment starts.

Case 2:
Insurers coverage is extended to those who are infected with coronavirus during travel and who start treatment within 30 days after the travel is completed.

Case 3:
If receiving medical treatment while traveling, the insurance covers medical treatment cost, transportation in Guam and travel costs (return to Japan) etc. within 180 days of receiving treatment.

Insurance Cost (example)
¥ 6,970 (3 days)
¥ 7,970 (4 days)
¥ 9,150 (5 days)
¥ 10,320 (6 days)
¥ 11,390 (7 days)

Amount covered by insurance and the conditions will vary depending on the company.

PCR TEST CENTER
The Japanese government plans to establish PCR test centers.

TARGET:
Inbound and outbound traveler (business-related trips)

PURPOSE:
Expanding testing capacity. Reduce the waiting time for test results.

TARGET:
4,000 per day

TIMING:
Start preparations from as early as this summer.

LOCATION:
Near Narita, Haneda and Kansai airports
JAPAN MARKET INTELLIGENCE

77 news mentions of “Guam Tourism Board” (+1183% previous week)

Top Digital NEWS posts topic: Postponement of the resumption of tourism, which was scheduled on July 1. Further distribution on various blog platforms (high reach; distribution).

Top SNS posts topic: Guam postponement has started to gain traction. Still seeing active travel promotions and people expressing desire to travel to Guam.

The Guam Tourism Board announced a postponement of the arrival of visitors from Japan, South Korea and Taiwan, which were scheduled to resume from July 1, 2020. Guam Territory Governor Lou Leon Guerrero said, “We will give the highest priority to the safety of the islanders and visitors to the islands due to the increase in the number of infected people in Guam.”

### TRAVEL INDUSTRY UPDATE

- Hana Tour and Mode Tour Package sales in June, 2020 recorded ~100% compared to the last year due to travel restrictions caused by COVID-19. The package sales in July-August, 2020 recorded ~99% compared to the last year.
- Travel agencies will be changed from paid leave to unpaid leave from the 2nd half of the year.
- With a sharp decline in travel demand amid the spread of the coronavirus, 389 travel agencies shut down this year.

- U.K. government will lift quarantine restrictions from July 10 for travel from 59 low-risk countries including South Korea.
- However, the travel demand is low due to 14-day quarantine measure in Korea upon returning.
- From July 22, T’way Air will resume two international routes; ICN-Ho Chi Minh & ICN-Hong Kong twice a week for each route. Regarding ICN-Ho Chi Minh route, it will only transport the passengers departing from Ho Chi Minh due to Vietnam’s restriction.

Taiwan to reopen consulate on strategically-located US island of Guam

- Taiwan’s Foreign Ministry said the reopening of its Taipei Economic and Cultural Office (TECO) in Guam was a response to closer Taiwan-US relations and the strategic importance of the Pacific region.

- “Reestabishing TECO in Guam will facilitate economic and trade cooperation and exchanges between Taiwan and the greater western Pacific region, deepen Taiwan’s relations with its Pacific allies, and increase multilateral exchanges,” the ministry said.
Training with Pacific Asia Travel Association (PATA)

TW representative Felix Yen was invited by PATA to present on a training course on 6/7, in which he gave an introduction regarding Guam’s exciting activities, charming culture, and authentic local food.

Moreover, connection was built with fellow travel agents, and relationship was built with PATA’s high level executives.

ANTOR Meeting

The ANTOR meeting on 6/24 went beyond in-group discussion and visited three others trade partners to exchange thoughts to unit together during such pandemic.

GVB TW representatives Felix Yen and Sandra Huang attended the meetings, visiting Association of Tour Managers, Taiwan (ATM), Travel Agent Association of R.O.C. Taiwan (TAAT), and Travel Quality Assurance Association (TQAA).

Connections were built with member of those groups and relationships were maintained.

Chinese International Tourism Design and Development Association (CITDDA) - Elite Training Course for MICE and Tourism Industry

TW representative Felix Yen was invited by CITDDA to present on a training course on 6/30.

A 2-hour presentation regarding how to design Guam tourism package and how the market expects from targeted high-end consumers was gave, and 30-min interactive Q&A session took place to build relationships with 50 tour guides and travel agencies.
CONSUMER SENTIMENTS

Consumers have been actively interacting with GVB TW on SNS, and are looking forward to travel to Guam again as they miss the warm sunshine and beautiful sunsets.

Enjoying the sunset by the beach is the most joyful activity on Guam

“What a graceful sunset!”

The blue sky, the great mountain, beautiful Guam. Other than going to the beach, you can also try hiking!

“I want to go pilot an airplane again”

“Been thinking about it for a good while.”

“I want to go again.”
