The Department of Public Health and Social Services issued Guidance Memo 2020-11 Rev10 for additional guidance relative to Executive Order 2020-34. All individuals entering Guam by air or sea are subject to a 14-day quarantine. Arriving passengers must quarantine at a Government of Guam Quarantine Facility or otherwise approved rental lodging or personal residence as authorized by the Guam DPHSS.

DPHSS Guidance Memo 2020-11 Rev10 includes the following updates:

• Day 6 Test for Transfer Option: Individuals in the Government of Guam Quarantine Facility may receive, subject to availability, a COVID-19 test on day 6 of quarantine administered by DPHSS or another provider designated by DPHSS. If the individual receives a negative result, they may transfer to quarantine at a rental lodging or personal residence to complete the remainder of their quarantine period. If a positive result is received, the individual will be subject to isolation protocols established by DPHSS.

• Once approved for transfer, persons must sign a new Voluntary Quarantine Acknowledgement form and provide their quarantine location address, a working phone number, and working email address. They may only be allowed to leave for medical emergencies and approved appointments. They may not receive any visitors except for contactless delivery for food and supplies, must adhere to symptom monitoring by the DPHSS, and report any signs or symptoms of COVID-19 to DPHSS quarantine monitoring staff.

• Exemptions are still applicable for critical service workers, essential healthcare professionals, vessel crew members, and some military personnel.

• Government quarantine facilities, and all services therein, are provided at no cost to travelers.

• Compliance with voluntary quarantine regardless of location is subject to monitoring, verification, and enforcement, according to DPHSS guidance. The knowing and intentional failure to follow any part of the order constitutes a misdemeanor punishable by a fine of no more than $1,000 and up to a year in prison.
Governor Lou Leon Guerrero signed Executive Order No. 2020-35 relative to providing financial assistance to medical and health providers and families of COVID-19 related fatalities. Effective on October 1, 2020 at 12:01AM, the public health emergency, currently set to expire on September 30, 2020, is extended for an additional thirty (30) day period.

Under EO 2020-35 is the establishment of the Healthcare System Stabilization Grant Program, administered by the Guam Economic Development Agency (GEDA). The program allows for healthcare clinics and other qualified medical and mental health providers to apply for and receive money for qualified expenses related to COVID-19. Deadline to apply is no later than December 31, 2020 or sooner if funds are exhausted.

The EO also establishes the COVID-19 Bereavement Assistance Fund, created by the Guam Department of Administration’s Benefits Section. The Section provides a one-time payment of $10,000 to assist the families of individuals who have died from COVID-19 related causes. The program shall be effective as the Guam Department of Administration develops and adopts applicable guidelines and will be active for the duration of the public health emergency, or until funds are exhausted.

Funds to support these two programs will come from the $118 million Guam received as part of the CARES Act.
Governor Lou Leon Guerrero signed Executive Order No. 2020-36 relative to authorizing the operation of additional businesses and activities during Pandemic Condition of Readiness (PCOR) 1. Executive Order No. 2020-36 includes the following:

Effective at 8:00AM on Saturday, October 3, 2020:

**SOCIAL GATHERINGS OR CONGREGATIONS** shall be limited to no more than five (5) persons, unless otherwise provided herein or in applicable Department of Public Health and Social Services (DPHSS) guidance.

**ALL GOVERNMENT OF GUAM PARKS AND BEACHES** shall be open to the public. To the extent individuals congregate at Government of Guam parks and beaches, such congregations shall be limited to no more than five (5) persons.

**PRIVATE COMMUNITY SWIMMING POOLS AND PUBLIC SWIMMING POOLS** are authorized to operate subject to applicable DPHSS guidance. To the extent individuals congregate at swimming pools, such congregations shall be limited to no more than five (5) persons.

**GYMS, FITNESS CENTERS AND DANCE STUDIOS** are permitted to resume indoor operations, at no greater than twenty-five percent (25%) occupancy load, subject to applicable DPHSS guidance. Each facility must submit mitigation plans to DPHSS and observe all mitigation measures imposed in applicable DPHSS guidance. Such businesses are encouraged to hold fitness classes outdoors to the greatest extent possible. Outdoor fitness classes may operate at up to maximum capacity, subject to DPHSS guidance.

In addition to previously authorized individual exercise and activities, additional limited outdoor recreation is authorized as provided herein and in applicable DPHSS guidance.

Effective at 8:00AM on Monday, October 5, 2020:

**SPORTS ORGANIZATIONS** may request authorization to conduct non-contact training at their designated training facilities. Such requests shall be submitted to DPHSS, which may authorize such activities on a case by case basis pursuant to DPHSS guidance, including any applicable occupancy limitation. Sports organizations operating under this Section shall additionally observe all mitigation measures imposed in applicable DPHSS guidance. Outdoor training is highly encouraged.

Effective 6:00AM on Monday, October 5, 2020:

**ELIGIBLE CHILD CARE CENTERS AND OTHER CHILD CARE FACILITIES** are permitted to resume operations, subject to applicable DPHSS guidance. Each child care center and other child care facility must submit facility mitigation plans to DPHSS in order to operate under this Section. Facilities operating under this Section shall additionally observe all mitigation measures imposed in applicable DPHSS guidance.
The Government of Guam continues to leverage technology to enhance response efforts to the COVID-19 pandemic. In addition to adopting the Guam COVID Alert App last month, public health officials will also be using Sara AlertTM, an open source tool that automates monitoring and reporting of individuals exposed to or infected with COVID-19.

With Sara AlertTM, individuals will be able to update the Department of Public Health and Social Services (DPHSS) on their health status on a daily basis during the period of time they are participating in public health monitoring. The tool provides real-time insights and increased reporting capability to support containment of the virus. It also enables hospitals and health systems to conduct contact tracing for their own employees. Sara AlertTM will be especially useful as DPHSS implements Guidance Memo 2020-11 Rev10, the latest quarantine protocol guidance.

“As further restrictions are relaxed, we need to ensure our Public Health containment and isolation team has the resources they need to keep this virus in check and prevent another surge of confirmed cases,” said Governor Leon Guerrero. “By deploying the new Sara AlertTM system, we can improve our efforts to mitigate the spread of COVID-19, protect the health of our people, and support our goal of safely opening up our community.”

Unlike Guam COVID Alert, users will not have to download a smart phone application to access Sara AlertTM. Instead, they will communicate directly with DPHSS officials to report daily symptoms through web, SMS text, email, or phone call. Sara AlertTM does not collect or ask for other personal identifying information like social security numbers, bank account numbers or other financial information. Sara AlertTM will only ask individuals to report symptoms they may be experiencing. The Sara AlertTM system is already in use in several other states and territories.

“DPHSS remains focused on its mission to reduce the number of COVID-19 cases in Guam,” said DPHSS Acting Director Art San Agustin. “Digital tools like Sara AlertTM are useful for quarantine management and help us improve our response and transition to recovery. This will increase our ability to track potential cases and contain cases more efficiently.”

Sara AlertTM is free for use by federal, state, territorial, tribal, and local governments, and regional health organizations. It was developed by MITRE, a not-for-profit organization that works in the public interest, in close collaboration and partnership with national public health organizations, including the U.S. Centers for Disease Control and Prevention, Association of State and Territorial Health Officials, National Association of County and City Health Officials, the Council of State and Territorial Epidemiologists, and other local and state health departments. Sara AlertTM has enabled public health workers to monitor and respond to the coronavirus pandemic and to coordinate and direct care where it is needed most.

“We developed Sara AlertTM with public health for public health,” said Dr. Paul Jarris, Chief Medical Advisor of MITRE’s Health Transformation Technical Center, and former Vermont Commissioner of Health. “Sara AlertTM has the potential to modernize the public health management of individuals in quarantine and isolation to protect communities from further spread of disease in this and future pandemics. As the pandemic evolves and stay-at-home measures are relaxed, states and localities can use it to strengthen efforts to control outbreaks in less affected areas, and to mitigate future waves of illness and possible rebound effects.”

For more information on Sara AlertTM, visit https://saraalert.org/.
COVID ALERT MOBILE APP

HOW IT WORKS

GUAM ALERT uses Bluetooth Low Energy (BLE) technology to quickly notify users who have likely been exposed so you can reduce the risk of infection for your friends and family and help Guam stop the spread.

STEP 1
Download the free app from the Apple App Store or the Android Google Play Store.

STEP 2
Once you opt-in to the notification system, the Exposure Notifications System will generate a privacy-preserving “random key” for your device. To help ensure these privacy-preserving “random keys” can’t be used to identify you or your location, they change every 10–20 minutes.

STEP 3
Your phone and the phones around you will work in the background, without draining your battery or data, to exchange these privacy-preserving random keys via Bluetooth Low Energy (BLE) technology. This is a passive process that begins once you opt-in and functions without the app open.

STEP 4
On a daily basis, your phone downloads a list of all the random keys associated with positive COVID-19 cases and checks them against the list of random keys it has encountered in the last 14 days.

STEP 5
If there’s a match, the app will notify you with further instructions from your public health authority on how to keep you and the people around you safe.

ADD YOUR PHONE TO THE COVID FIGHT
HELP GUAM STOP COVID-19

Download the Department of Public Health and Social Services GUAM COVID ALERT app to help protect our island while protecting your privacy.
guamcovidalert.guam.gov
The Officers of Guam Homeland Security and Civil Defense (GHS/OCD) encourage all residents to increase earthquake preparedness and response by practicing how to protect themselves during an earthquake and how to ensure that earthquake disaster does not become a catastrophe.

The event will happen on Thursday, October 15, 2020 at exactly 10:15 a.m. (ChST), where participants will practice the earthquake response procedure; "Drop, Cover, And Hold On" from wherever they are located. The drill will last for one minute.

To participate in this year’s ShakeOut, residents must register online at https://www.shakeout.org/guam/ or call (671) 475-9600. The ShakeOut website also provides drill manuals, tips on earthquake safety, and other resources for developing a disaster plan. Residents may register as an individual, family, school, business, or other group and are encouraged to share photos of their experience on the Great Guam ShakeOut website.

Island residents will be joining close to 15 million ShakeOut participants from across the world from U.S., Hawaii, British Columbia, CNMI, New Mexico, Puerto Rico, Southern Italy, and other various regions.

For more information, contact Tsunami Specialist, Denille Calvo at (671) 475-9600 or via email at denille.calvo@ghs.guam.gov

For media enquiries, contact Public Information Officer, Jenna G. Blas at (671) 478-0208 or via email at jenna.g.blas@ghs.guam.gov
The Guam Visitors Bureau has extended the payment deadline, allowing eligibility for nomination and eligibility for voting from October 5, 2020 to November 5, 2020. Our GVB membership election has also been rescheduled and will be held on February 5, 2021.

**Membership Election:**

Fiscal year 2021 is a GVB membership election year. This is an opportunity for our GVB members to use the power of their voice to nominate and vote for candidates that will represent the industry through (4) seats within the GVB board of directors.

In order to be eligible, the following deadlines must be adhered to:

**November 5, 2020 – FY2021 membership payment deadline** allowing eligibility for nomination and eligibility for voting.

**January 9, 2021 – Nomination deadline, 5:00 PM**

BUSINESS TRACK

- Allow cross-border travelers to enter Japan or its counterpart countries
- Short-term business travelers (example: Japan - Singapore: less than 30 days)
- Obtaining a certificate of pre-entry test result before entry
- Require to take PCR or Antigen test upon arrival at the airport in Japan
- Allow limited business activities during the 14 days, but need to submit of Schedule of Activities in Japan
- Retaining location data for 14 days after entering to Japan
- Refraining from using public transportation

STARTED BUSINESS TRACK WITH SINGAPORE ON SEPTEMBER 18, 2020

- Singapore is the first country with which Japan is establishing the Business Track.
- Expected to mark an important step towards supporting economic recovery for Japan and Singapore.

MAJOR DIFFERENCE BETWEEN BUSINESS TRACK AND RESIDENCE TRACK

BUSINESS TRACK: LIMITED ACTIVITIES ARE PERMITTED
RESIDENCE TRACK: 14-DAY QUARANTINE
JAPAN COVID-19 NEWS

RESIDENCE TRACK

- Allow cross-border travelers to enter Japan or its counterpart countries.
- Long-term residence with a status of residence (dispatch or rotation within business personnel).
- Obtaining a certificate of pre-entry test result before entry.
- Require to take PCR or Antigen test upon arrival at the airport in Japan.
- 14 day quarantine at home or a place designated by the government.
- Retaining location data for 14 days after entering Japan.
- Refraining from using public transportation.

STARTED RESIDENCE TRACK WITH SEVEN COUNTRIES FROM END OF JULY 2020.

- Thailand (in operation since July 29)
- Vietnam (in operation since July 29)
- Malaysia (in operation since September 8)
- Cambodia (in operation since September 8)
- Laos (in operation since September 8)
- Myanmar (in operation since September 8)
- Taiwan (in operation since September 8)

THAILAND & JAPAN PACKAGE TOUR

Royal Orchid Holidays (Thai Airways' Tour Brand) offering a special package for 2 week stays at ASQ (Alternative State Quarantine) for passengers.

- Duration: 15 nights, 16 days (room rate varies)
- Package price: from 55,000 Thai baht (about ¥ 184,000)
- Transportation: free from the airport to hotel
- Temperature and health checks by medical staff
- COVID-19 test: at least two tests
- Meals three times a day
- Laundry services (discount rate)
- Free WIFI and Netflix

(Information source : Thai Airways)
The Japan government plans to start a designated website in October to book PCR testing before overseas travel.

**DOMESTIC TOURISM: SEPTEMBER 19-22**

**BULLET TRAIN**
- Tokaido Shinkansen, the occupancy rate of unreserved seats: 170%.
- Tohoku Shinkansen, the occupancy rate of unreserved seats: 150%.

**AIR**
- ANA: about 290,000 people
  - LF: 70% (4 days)
- JAL: about 270,000 people
  - LF: 65% (4 days)

**HIGHWAY**
- Congestion of 20km or more occurs on each highway.
  - Chuo: 47km
  - Kanetsu: 34km
  - Tomei: 35km

**New Coronavirus Testing Center (TeCOT) for overseas travelers**
- Target: Business travelers & Japanese athletes
- Documents to prepare: Different conditions by country
- Medical institutions register possible testing capacity through TeCOT website.
- Business people searches for medical institutions and book.
- Get tested at a medical institution. (COVID-19 tests)
- Receive a negative proof documents and then depart.

**Website**
- Search for medical institution and send a reservation request
- Reservation confirmation
- Provide information such as inspection method, device and reagent etc.
- PCR Test (RT-PCR test), Antigen test etc

**TeCOT**
- Target: Business travelers & Japanese athletes
- Documents to prepare: Different conditions by country
- Medical institutions register possible testing capacity through TeCOT website.
- Business people searches for medical institutions and book.
- Get tested at a medical institution. (COVID-19 tests)
- Receive a negative proof documents and then depart.

(Data Source: Airlines and other MI)
On September 28, South Korea added 50 more COVID-19 cases, including 40 local infections. The daily new cases are the lowest in 48 days since Aug. 11 when 34 cases were reported.

With a goal to minimize the potential impacts of the Chuseok holiday, the government decided to designate a special two-week period for strong antivirus efforts starting September 28, while maintaining the Level 2 social distancing guidance.

Under the new campaign, the operation of 11 types of “high-risk” facilities, including clubs, bars and buffets, will be suspended in the greater Seoul area for two weeks. As for non-metropolitan areas, five kinds of risk-prone facilities, such as nightlife establishments will be ordered to shut down for a week.

The government designated the two weeks starting September 28 as a "special period" for strong nationwide anti-virus efforts.

- The government asking people to refrain from visiting their hometowns or places.
- Ban indoor meetings involving 50 people or more and outdoor meetings involving 100 people or more.
- Call on all sporting events to be played without spectators.
- Arrest illegal protesters at the scene and suspend driver's licenses of those who participate in a car parade.
- Restrict access to the more crowded areas of Han River parks including Yeouido Hangang Park.
- Carry out on-the-spot inspections into traditional markets, department stores, supermarkets, bus terminals and logistics centers to see if they are complying with the anti-virus guidelines.
- Jeju Special Self-Governing Province drew up strict anti-virus guidelines that took effect September 26, calling for tourists to wear face masks during their visit. If they experience symptoms associated with COVID-19 such as a fever, they should stop traveling and consult a local.
FLIGHT GOES NOWHERE

- Flight goes nowhere: Flights that land in the same place they depart from. This airline service is called “scenic flights” or “flights to nowhere.”
- People who miss flying and travel are rushing to get tickets for flights that go nowhere.
- Although most people may think of flying as a means to an end, existing solely to get them from one place to the next, some say that it is an exciting part of the travel experience.
- Interview with passenger: “I didn’t realize how much I’d missed traveling until the moment the captain’s voice came on the speaker with the welcome and safety announcement.”

CASE STUDY: ROYAL BRUNEI

- Royal Brunei Airlines introduced sightseeing flights to nowhere.
- Called “Dine & Fly,” the airline uses one of its seven Airbus A320neos to take passengers on an 85-minute sightseeing tour of Borneo while being served a gourmet meal.
- During the flight, the captain points out exciting landmarks that include Kota Kinabalu and Labuan.
- Before returning to Brunei International Airport, the captain circles around the 30-kilometer long Sultan Haji Omar Ali Saifuddien Bridge.
- The flights start at $106 in economy class and rise to $145 in business class.
- Promotional Video: https://www.youtube.com/watch?v=JV2essduEXQ
The Korea Tourism Organization, Taiwanese travel agency Ezfly and airline Tiger Air introduced a flight deal from Taipei to Jeju Island.

The flight will not land on Jeju Island, however, it will circle above the island before returning to Taipei.

The flight deal priced at $228 includes:

- One-year voucher for round trip flight tickets from Taiwan to Korea, which can be used after COVID-19 travel bans are lifted.
- Customers can add a one-night stay at a hotel in Seoul for $80
- Before boarding at Taipei Airport, passengers have a chance to try on Korean costume Hanbok.
- Fried chicken and beer served as the in-flight meal.
- Also, the Jeju Tourism Organization has prepared a quiz show and seminar on the island for passengers.
GVB KR & Korean Travel agency & Airline will launch the “Aerial Travel to Guam” product targeting a consumer who is eager to fly and travel to Guam. Also, those who want to celebrate their anniversary in a special way.

The product offers consumers a chance to experience the atmosphere of Guam with local food, promotional video, etc.

The flight deal includes a voucher for round trip flight tickets from Korea to Guam, which can be used after COVID-19 travel bans are lifted. Customers can add options for hotel reservation in Guam with additional charge.

During the flight, consumers can enjoy the following program:
- Guam promotional video
- Tourist attraction commentary by flight crew
- Guam hotel seminar & sales
- Guam quiz (prize will be given)
- Guam special product, duty-free purchase in flight
- Giveaways from GVB

**EXPECTATIONS**

**FOR GVB**
- Inspire people to travel Guam one day, and engage with Guam while most tourists are not able to visit Guam at this moment.

**FOR PARTNERS**
- Provide an opportunity for the local partners to promote their product to potential consumers, and win back consumers when travel is available.

**FOR TRAVEL INDUSTRIES**
- With showing our recovery effort and new creative approach to create revenue, re-connect the travel industries by inspiration to change for recovery.
Asiana Airlines has transformed its passenger aircraft A350-900 into a cargo carrier in a move to enhance its cargo operations. It is the world’s first time for an A350 aircraft to be converted to cargo flight.

Asiana Airlines launched a special travel package called “Sky-line Travel” for the first time in Korean airline industry. The flight is not landing, however, it will travel the sky of Gangreung, Pohang, Gimhae, and Jeju Island for 2 hours.

Asiana Airlines also removed 283 economy seats from the aircraft’s passenger cabin to make a room for 5 tons of additional cargo.

Asiana Airlines has transformed its passenger aircraft A350-900 into a cargo carrier in a move to enhance its cargo operations. It is the world’s first time for an A350 aircraft to be converted to cargo flight.

The newly transformed aircraft, as a cargo carrier departed Korea for LA on September 24, carrying 20 tons of cargo goods. In October, the A350 will travel mostly on routes with high cargo demand, such as between Incheon and Ho Chi Minh City.

Singapore Day (Oct 24): photo event to be provided before boarding to have passengers to experience Singapore virtual travel by co-op with Singapore Tourism Board.

Saipan Day (Oct 25): photo event to be provided before boarding to have passengers to experience Saipan virtual travel by co-op with Mariana Visitors Authority.

Asiana Airlines limit the seats and only operate with 320 seat capacity per day on October 24 and 25, in accordance with COVID-19 protocol and social distancing measure.

*LJ641 – scheduled to operate weekly flight on October 14, 21, and 28.

### Travel Trade News

- **Korean LCCs** have recently resumed 12 international flights, decreased by 10% of operating rate compared to last year.
- Due to continued pandemic, most of sales are dependent on commercial demand. According to the Airport statistic, the LCCs’ load factor of international flights recorded 31% only.
- However, the restriction of movement between some countries are eased which is a positive signal for airline industry. Russia government will lift travel restriction to Korean visitors and the flight services will be resumed from the end of September.
- Despite of resuming international flights, the market demand will not be recovered as fast as possible due to limited flight operation according to the COVID-19 protocol.
- China allows Korean airlines to provide weekly flight service with 75% seat capacity limit and Japan allows to operate its services to Tokyo and Osaka only.

**Total Outbound Seat Capacity (October): 567 seats**

*Schedules and seat capacity are subject to change (as of September 28)
TAIWAN
Taiwan’s Central Epidemic Command Center (CECC) said on Friday (Sept 25) that it aims to distribute the coronavirus vaccine to at least 60 percent of the Taiwanese population by the end of 2021.

During a question-and-answer session at the Legislative Yuan, Health Minister and CECC head Chen Shih-chung revealed that Taiwan has signed up to join the COVAX global vaccine allocation plan and will pay a deposit to the organization next month.
Answering questions at the Legislature Friday, Minister of Health and Welfare Chen Shih-chung revealed that Taiwan signed up to the COVAX global vaccine allocation plan last week and expects to pay its deposit to the organization next month.

COVAX is co-led by the Global Alliance for Vaccines and Immunisation (Gavi), the Coalition for Epidemic Preparedness Innovations (CEPI) and the World Health Organization (WHO).

Starting from September 24, Mainland Chinese spouses may apply to enter Taiwan.

The CECC updated its list of countries/regions eligible for shortened quarantine periods in Taiwan.

**Low-risk countries/regions:**
- New Zealand, Macao, Palau, Fiji, Brunei, Thailand,
- Mongolia, Bhutan, Laos, Cambodia, Myanmar, Sri Lanka, Nauru,
- East Timor, Mauritius

**Medium-risk countries/regions:**
- Malaysia, Singapore, Vietnam
