Hafa Adal! ("Hello!" "Welcome!" in Guam’s native Chamorro language)
The tropical island paradise of Guam is where America’s Day begins! We are America in Asia, being the closest U.S. destination to the Asian continent.

Our island is well equipped with modern facilities to accommodate MICE travel. Our hotels have also established deep roots for many years, often giving back to help keep the local community safe and our industry thriving. We also recently welcomed a new five star luxury hotel that houses Guam’s first convention center.

The island’s natural beauty really highlights Guam’s 4,000-year-old Chamorro culture. Our beaches are enchanting. Our water is warm and crystal blue. Our air is clean. Our people are known for their hospitality and friendliness. Our cuisine has found a balance between the influences of eastern and western cultures. Our shopping is tax-free and diverse. With all of these reasons and between the influences of eastern and western cultures. Our old Chamorro culture. Our beaches are enchanting. Our water is warm and crystal blue. Our air is clean. Our people are known for their hospitality and friendliness. Our cuisine has found a balance between the influences of eastern and western cultures. Our shopping is tax-free and diverse.

Si Yu’os Ma’ase, or thank you, for considering our island home.

Guam has an array of hotels that can accommodate group trips. With much experience, hotels deliver excellent services to fulfill your requests and needs. Each hotel can offer unique plans, programs and ideas to help your trip be more successful.

[Guam’s Traffic Regulations]
- Cars are driven on the right side of the road, and the steering wheel is on the left.
- You may turn right when the traffic light is red, too.
- If you see a sign, “No Turn on Red” or the traffic light signaling you must turn right, follow the signs and directions.
- Speed indication is in mile, not kilometers. (1mile = about 1.6km)
- Speed limit is 15-25 miles (about 24-40km) per hour in the city, and 35miles (about 56km) per hour in the suburbs. “Speed limit may be changed without a notice, so please check the signs.”
- The yellow lines on a relatively big road is the “middle lane” which is used to allow for making left turns or merge in to traffic.
- Yellow buses are school buses. You must not pass them when the bus is driving nor when they are stopped on the road. You must stop and wait until the bus starts driving.

[Things to be careful when driving]
- Driving on Marine Corp Drive towards the South
When you drive on the Marine Corp Drive toward the south to reach Agat, you need to drive from Route 1 to Route 2A then Route 2. After passing Piti, there is a 4-lane intersection (Taco Bell as the landmark). Here drive on the 2 lanes from the left as the other lanes do not lead to Agat.
- Be Cautious!
Roads on Guam, especially in suburb have coral reefs mixed in the asphalt, which may make the road a little slippery when raining. (Especially in the beginning of the rain.) For this reason, please maintain enough distance from the car in front of you, and avoid sudden braking, accelerating and steering wheel movement especially during a sudden rain showers.

[Things to be careful when walking]
- Always walk against the flow of traffic, so you are more visible to the drivers.
- Avoid dark roads or places where there is not much people around.
- For your safety, avoid walking alone.
- Avoid carrying all your valuables when walking, hold your bag tight and do not face the bag toward the road.
- If anyone tries to steal from you, do not resist. Get as much information as you can and immediately contact the police. Also consult with your hotel or tour agency to take necessary procedures.
- Use a safe at the hotel for passports and important documents.
- If crossing the road, use the pedestrian crossing that has a traffic light.
- At traffic crosswalks with a push button, if the icon shows a person waiting, you can cross the road, if that is blinking, finish crossing the road as soon as possible, if you see the red hand icon, you must wait.
- When crossing at the intersection, make sure to check if any cars are turning right.
