WHAT IS GUAM SAFE CERTIFIED?

Guam Safe Certified is the official local designation, which identifies establishments that are in compliance and have care and pride in following government health and safety guidelines.

WHAT IS THE WTTC SAFE TRAVELS STAMP?

The World Travel & Tourism Council (WTTC) created the first ever global safety and hygiene stamp. This stamp enables travelers to recognize destinations around the world that have adopted standardized health and hygiene protocols.

Guam Visitors Bureau (GVB) serves as the official organization to advocate for the implementation of these protocols in Guam and to issue the Guam Safe certification and Safe Travels stamp to local businesses.

WHY?

- Guam Safe Certified is a branding initiative that endorses your business' health and safety practices at the local level and encourages island pride!
- The Safe Travels initiative is globally recognized & instills a level of confidence in both the tourism trade and international visitors.
- Both initiatives help to rebuild trust among tourists and within the tourism sector.
- Logos can be used on websites, emails, and digital channels can generate business materials, videos, social media campaigns.
- **FREE** of charge to all eligible businesses.

COUNTRY ARRIVAL PROTOCOLS

(as of October 27, 2021)

NEW INTERNATIONAL TRAVEL POLICY

- New policy requiring foreign nationals (non-U.S. citizens who are nonimmigrants) traveling to the US by air to be fully vaccinated against COVID-19 takes effect **November 8, 12:01am EST**
- **FDA approved and authorized vaccines**, and vaccines that have an **Emergency Use Listing (EUL)** from the **WHO** will be accepted for air travel (Janssen/J&J, Pfizer-BioNtech, Moderna, AstraZeneca, Covishield, BIBP/Sinopharm, & Sinovac)
- Vaccinated inbound travelers, including US citizens, must also show proof of a negative COVID-19 test taken no more than three days before departure to travel to the US from abroad
 - Unvaccinated Americans abroad will need a negative COVID-19 test within a day of return flight
- CDC now considers full vaccination possible with mixed doses, so long as they are approved either by the FDA or WHO
- Limited exemptions are given for unvaccinated such as children under 18 years of age and persons on diplomatic or official foreign government travel (click link below for complete exemption list)

<https://www.cdc.gov/coronavirus/2019-ncov/travelers/testing-international-air-travelers.html>

KOREA COVID-19 NEWS

70% OF POPULATION FULLY VACCINATED - EN ROUTE TO 'NEW NORMAL'

- South Korea achieved its goal of fully inoculating over 70 percent of the country's population earlier than scheduled amid its accelerating vaccination drive on Oct. 23.
- The achievement comes as the country is set to gradually phase out coronavirus restrictions, joining a list of countries embracing a new scheme of returning to normal life with the coronavirus.

SINGAPORE EXTENDS COVID-19 CURBS FOR A MONTH AS CASES SPIKE

- Singapore will extend its social curbs to contain the spread of COVID-19 for around a month in order to ease the pressure on the healthcare system.
- The extended measures – which include capping group sizes for social gatherings and dining in at two – will be reviewed at the two-week mark and adjusted based on the community situation then.

SEOUL CITY MOVES TO NORMALIZE PUBLIC TRANSIT SERVICE

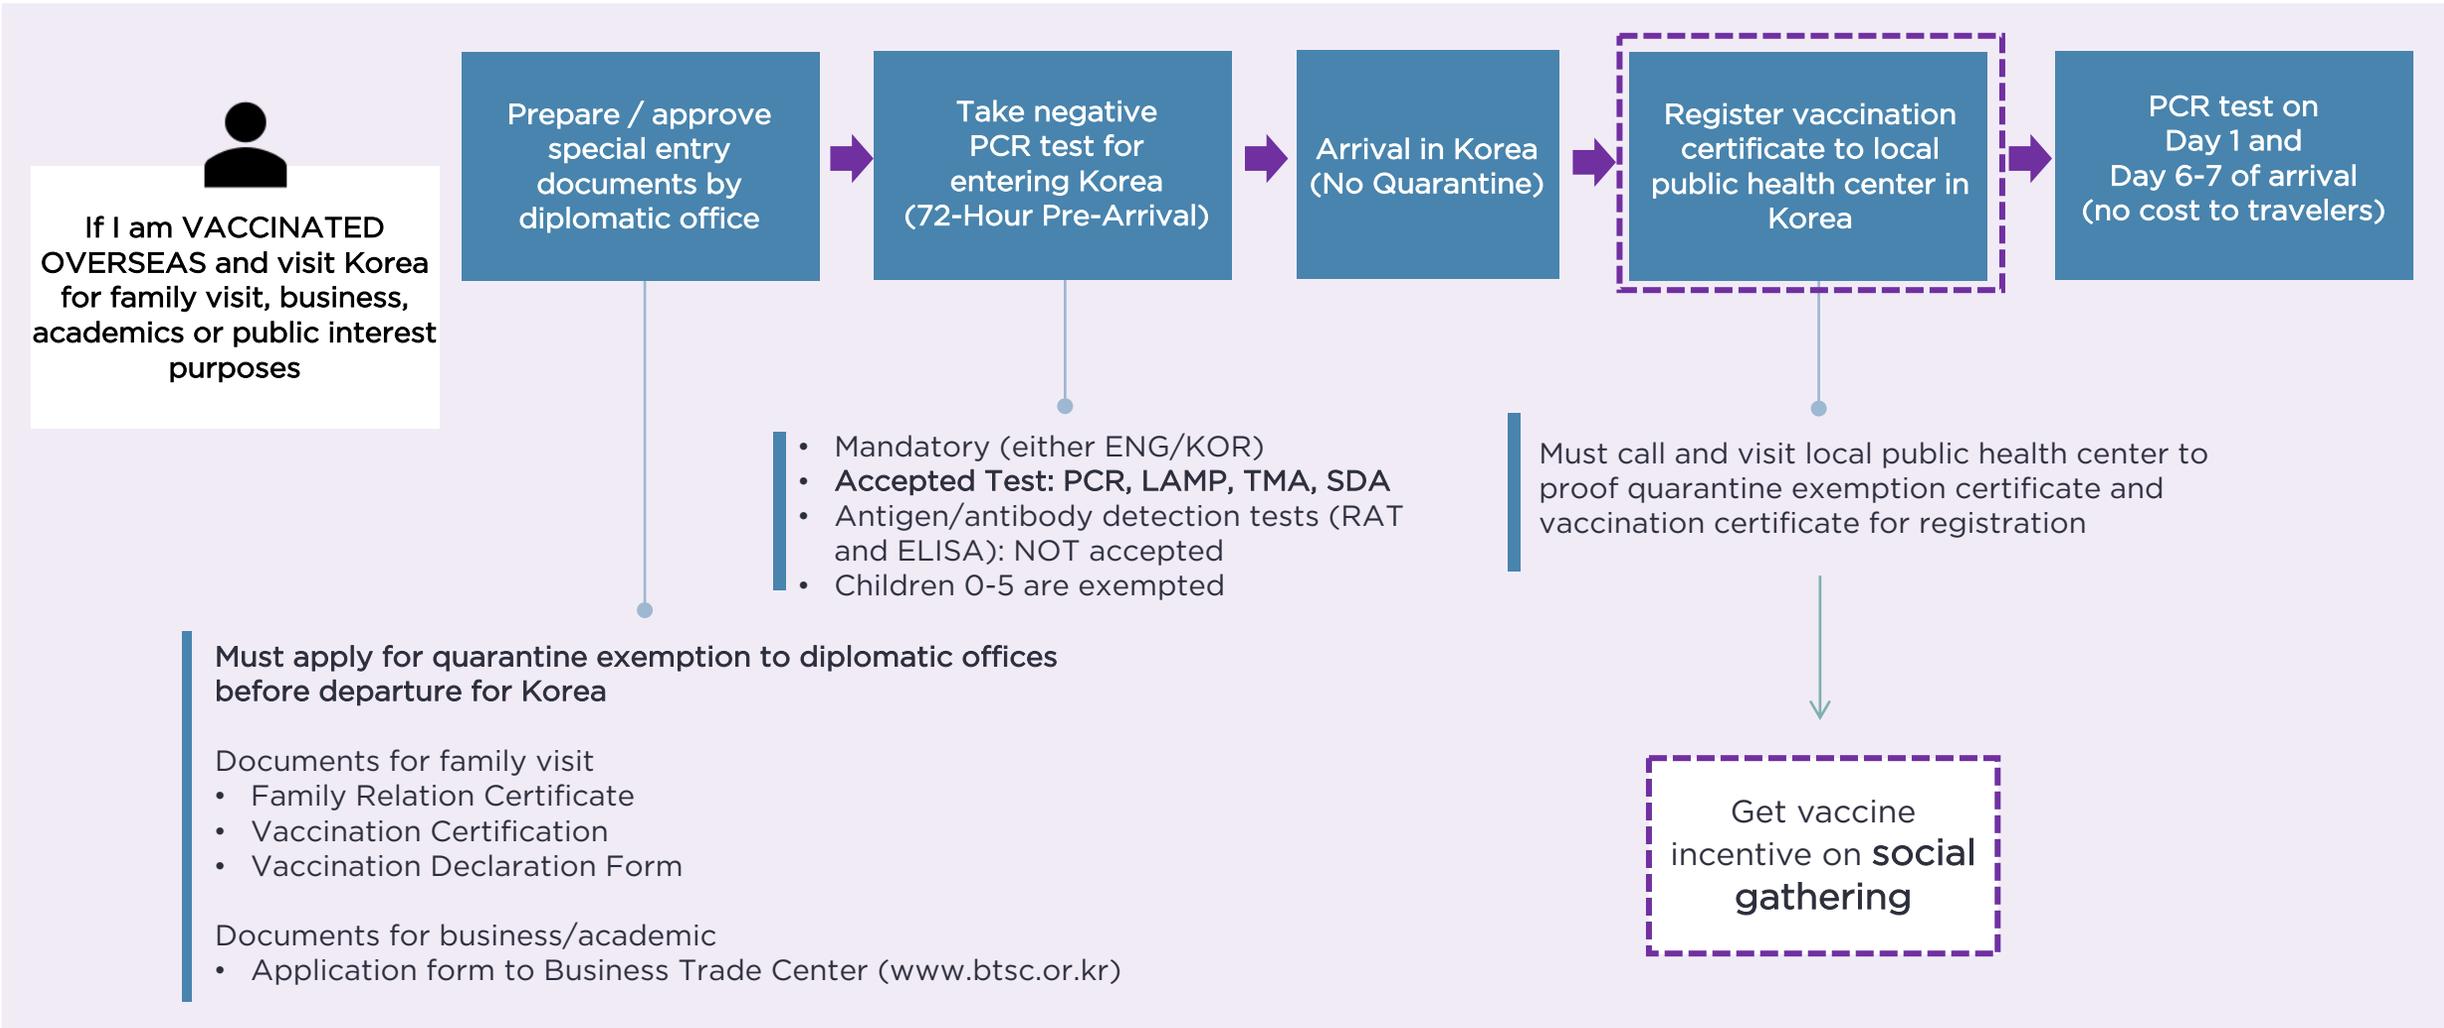

- The Seoul city government will begin normalizing late-night public transportation operations on weekdays, months after they were reduced due to social distancing measures against COVID-19.
- The city has reduced its public transit services after 10 a.m. on weekdays by up to 20 percent since July, which led to an average 35 percent decrease in the number of public transportation users for that time.

S. KOREA'S FOURTH WAVE DIMINISHES AS CASES FALL

- South Korea's new Covid-19 case counts are waning, signaling an end to the fourth wave that began in July.
- Health authorities said while there is a possibility that the number of daily cases can increase again with eased social distancing rules, the rising vaccination rates can still help bring down the number of positive cases into triple digits.

PEOPLE VACCINATED ABROAD TO RECEIVE VACCINE INCENTIVES IN KOREA

CHINA'S COVID-19 OUTBREAK GROWS AS CITIES RACE TO TRACE INFECTIONS

- China reported a fourth day of new locally transmitted COVID-19 cases in a handful of cities across China, prompting alarmed local governments to track potential carriers amid the country's zero-tolerance policy.
- Among the cases was one in the capital city Beijing, which is busy gearing up for its hosting of the 2022 Winter Games in February, where officials vowed stringent efforts against the virus.

TRAVEL AGENCIES STRIVING TO OPEN HONEYMOON PROMOTIONS AS KOREA REACHES 80% OF VACCINATION

- Travel agencies in Korea are focusing on honeymoon market, especially in Guam, as it is regarded as the safest destination as well as the place with the simplest entry procedure to visit.
- With airlines reopening their routes to Guam, OTAs are picking up speed while preparing to gradually open up other routes at the same time.

KOREAN AIR

Route	Days
ICN-HNL	WED/FRI/SUN (Nov. 3)

Incheon to Hawaii route is being operated after 19 months of suspension due to COVID-19.

AIR SEOUL

Route	Days
ICN-GUM	THU/SUN (Dec)

Plans to gradually expand international flights that are in demand for honeymoon trips such as Saipan.

MODETOUR

- Weighing on securing charter flights and regular seats for the winter season.
- Confirmed the operation of charter flights to Spain in January 2022
- Discussing charter flights to Guam, Saipan, and Singapore, to depart during the Lunar New Year holiday next year.

SOUTH KOREA TO ACTIVELY SUPPORT INBOUND TRAVELERS FROM SINGAPORE

- Currently, the Korean government is in the stage of preparing a unified manual for the travel bubble agreement with Singapore, planning to distribute at least two weeks before the implementation.
- The government is preparing to provide as many benefits as possible, such as industry incentives and supports for foreigners in the early stages of implementation.

Protocol (SIN-ICN)

PCR test reservation before arrival in Korea → PCR test upon arrival (quarantine at the hotel until result comes out) → PCR test at day 6-7 (if staying more than 8 days)

Eligibility

Private tours became possible upon mutual recognition of vaccination certificates by both countries

**Early in June, only group tours were allowed*

Vaccine Incentives

Same vaccine incentives will also be applied to inbound travelers (social gatherings, etc.)

Expected Problems

- PCR test cost to inbound travelers
- Quarantine issues for children aged 7-12 as most of the package tourists are family unit
- Social gathering issues and the domestic social distancing rules as package tours consist of around 16 to 20 pax

NEW ZEALAND SETS 90% VACCINE TARGET TO END LOCKDOWNS AND REOPEN

- New Zealand's will end its strict coronavirus lockdown measures and move to a system to live with the virus only when 90% of the country is fully vaccinated.
- On reaching the 90% fully vaccinated target the country will provide a pathway out of lockdown and will enable businesses and events to re-open to vaccinated New Zealanders.

SNS WEEKLY ACTIVITY

TAIWAN

TAIWAN CONSIDERS LOOSENING COVID RESTRICTIONS NOV. 2

- Restrictions imposed to prevent the spread of COVID-19 are likely to be loosened further beginning Nov. 2, the Central Epidemic Command Center (CECC) said Saturday (Oct. 23).
- After a major outbreak in May and June, the number of daily local infections has dwindled to single figures, with just imported cases in recent days. As a result, the CECC has gradually lifted restrictions, first allowing eating indoors and visiting movie theaters, and more recently scrapping mask mandates for hiking and outdoor athletics.
- The current Level 2 COVID alert was extended until Nov. 1 and it is not yet clear what will happen afterward. While the number of local infections has plummeted, officials are reportedly still worried about coronavirus cases, and in particular the more infectious variants, entering from overseas.

TAIWAN TO OPEN MIX-AND-MATCH COVID-19 VACCINE APPROACH TO PUBLIC

- Taiwan will soon allow the general public to mix-and-match COVID-19 vaccines for the first time, starting as early as the first half of November, the Central Epidemic Command Center (CECC) said Friday.
- The new policy will enable an estimated 550,000 people who received an AstraZeneca COVID-19 vaccine jab at least 10 weeks earlier to get a Pfizer-BioNTech (BNT) shot as a second dose, said CECC spokesperson Chuang Jen-hsiang at a press conference Friday.
- Health Minister Chen Shih-chung said there should be enough BNT vaccines available in November according to current estimates to allow for the mix-and-match option for that number of people.

Taiwan's Vaccine Rollout

Doses Administered				
Brand	New	Total	[1st dose]	[2nd dose]
AstraZeneca	195,660	11,301,113	7,763,088	3,538,025

BORDER CONTROLS TO REMAIN UNTIL 7 MILLION FULLY VACCINATED: OFFICIAL

Taiwan's COVID-19 border control measures will remain unchanged until at least 30 percent of the population have been fully vaccinated, Deputy Minister of Health and Welfare Shih Chung-liang said Thursday.

At a Cabinet press conference, Shih said the Central Epidemic Command Center (CECC) would need to weigh up the global pandemic situation and the country's COVID-19 vaccine coverage before making any changes to the current border policy.

In particular, Shih said entry restrictions would not be eased until at least 30 percent of the population, or about 7.02 million people, in Taiwan have been fully vaccinated and received two doses of a COVID-19 vaccine.

TAIWAN MULLS SHORTENED QUARANTINE DURING LUNAR NEW YEAR

Health Minister and CECC head Chen Shih-chung said the center is considering either shortening quarantine or allowing people to quarantine at home during the Lunar New Year early next year.

At a press briefing following a meeting of the Social Welfare and Environmental Hygiene Committee in the Legislative Yuan on Thursday (Oct. 21), Chen said the outbreak in Taiwan has been controlled. He said the goal now is to allow people to return with "peace of mind" during the next Lunar New Year holiday.

Chen said the CECC is considering whether to allow Taiwanese returning from overseas during the Lunar New Year festivities to either undergo quarantine at home, rather than epidemic prevention hotels, or shorten the number of days of mandatory quarantine. He said the rationale of adopting these measures would be to improve convenience for those returning to the country, while still having a minimal impact on epidemic prevention.

- On October 15, The CECC pointed out that the list of key high-risk countries, after adjustment, includes India, the UK, and Myanmar. Travelers with history of travel to the five countries shall stay in group quarantine facilities for the 14-day quarantine and cooperate with the required testing measure during the quarantine period.
- The latest list of the risk categories for countries/regions is as follows:
 - Level 1 (Watch): None
 - Level 2 (Alert): Palau
 - Level 3 (Warning): the rest of the countries/regions in the world except for Palau
- CECC restarts entry program for overseas students on a case-by-case basis as pandemic continues to subside in Taiwan.

AIRLINE UPDATES

CURRENT ROUTE IN OPERATION:

China Airlines

- Routes scheduled for October-December

NATIONWIDE VACCINATION FOR MINORS TO START NOVEMBER 3

Nationwide COVID-19 vaccination for all minors aged 12 to 17 may start as early as November 3. Vaccine czar Carlito Galvez said on October 29 they will open pediatric vaccination in up to 50 more hospitals nationwide in addition to the 28 already providing shots for minors. He said all regions will take part in the expanded vaccination drive. The government is currently on the second phase of its COVID-19 vaccination program for minors aged 12-17 with comorbidities in Metro Manila, after it launched its pilot run in select hospitals on October 15. Galvez said with the expanded inoculation, the government will hopefully meet its target of administering 1.5 million shots per day by November 15.

PHILIPPINES NOW AT LOW-RISK FOR COVID-19, BUT ICU USE STILL AT MODERATE LEVEL

The Philippines is now classified as low-risk for COVID-19, but use of beds in intensive care units across the country remains at moderate level, the Department of Health announced on Monday.

Although the risk classification nationwide was downgraded from moderate to low-risk, Metro Manila, Cagayan Valley, Zamboanga Peninsula, Cordillera, and Ilocos Region are still at moderate risk, DOH Undersecretary Maria Rosario Vergeire said.

The rest of the regions are deemed low-risk and no area is considered high-risk.

While the ICU utilization across the country is at moderate level, the DOH flagged the high utilization rate in Cagayan Valley at 88%, Zamboanga Peninsula at 71%, and Bicol Region at 71% as of Oct. 23.

"The decline in cases is seen at the national level and in most regions," Vergeire pointed out.

"However, majority of provinces and cities in CAR, Regions 1, 2, 4B, and 9 remain at moderate to high-risk case classification with bed or ICU hospitalization rates at high to critical risk," she said.

U.S. MILITARY DONATES COVID-19 VACCINE COLD STORAGE UNITS TO THE ARMED FORCES OF THE PHILIPPINES

The turnover of medical equipment and supplies was made official at a ceremony at AFP General Headquarters attended by Acting Deputy Chief of Mission (DCM) of the U.S. Embassy in the Philippines David Gamble and AFP Chief of Staff Gen. Jose Faustino Jr. The donation is intended to support AFP Health Service Command represented by the commander, Brig. Gen. Edgar Cardinoza.

The U.S. government's latest donation is part of a larger assistance that provides ICU beds, essential protective equipment, and vaccine cold storage units for rapid distribution to support COVID-19 efforts in high-risk areas across the country.

To date, the United States has provided more than Php1.9 billion (\$37.47 million) to support the Philippines' COVID-19 response.

The Philippines is the United States' oldest treaty ally in Asia. This joint U.S.-Philippine partnership builds on decades of bilateral military cooperation in humanitarian assistance and disaster response, counterterrorism, maritime security, and many other fields.

Acting Deputy Chief of Mission of the U.S. Embassy in the Philippines David Gamble and Armed Forces of the Philippines (AFP) Chief of Staff Gen. Jose Faustino Jr. lead the donation ceremony as Indo-Pacific Command's Civil Military Support Element-Philippines delivers ICU beds and COVID-19 vaccine cold storage units to the AFP.
