Guam’s deep Chamorro culture has been passed down through generations and is still seen today with the diverse influences of Spanish, Japanese and American culture. Touch Guam’s history and beautiful traditions during your group trip, and share your thoughts with one another.

## Chamorro culture

Chamorro culture was formed by ancient Chamorro people who moved to the island of Guam thousands of years ago. The island’s ancestors were excellent fishermen and artisans, and had created unique and original houses and canoes to create a proper and comfortable living environment. They were also experts in making high quality textile and pottery. Guam also used to be a strong matriarchal society. Most of Chamorro culture includes language, music, dance and traditions that were preserved and succeeded from generation to generation.

## Guam’s History

It is believed that seafaring people from Indian Himalaya region settled in Marianas Islands including Guam, and those who inhabited there began to be called Chamorros.

Historical landmark of the island, the Latte Stone served as foundation pillars for Chamorro houses or it is said that they may also have had some religious purposes. They can be seen at the Latte Stone Park and architectural design of Guam’s southern homes and villages. This symbolic shape is also used in many souvenirs from Guam.

## Year 1500 - Spanish Era

On March 6, 1521, Guam was found by a Spanish explorer, Ferdinand Magellan with over three hundred years of Spanish Colonization Era which begun in 1565.

After the arrival of Spanish, Roman Catholicism was spread as the predominant religion on Guam. More than 85% of Guam’s population are Roman Catholics.

## Year 1898 - US Naval Period and World War II

After the Spanish-American war, Guam was ceded to the United States. During World War II, the island was occupied by Japan for a few years and in 1950, Guam became a territory of the United States.

Guam is the closest US Territory to many countries in Asia and the Pacific and is also a tax-free destination.

## Year 1967 - the beginning of Guam tourism

May 1, 1967, a flight with 109 passengers on Pam-Am Air from Tokyo arrived at Guam, and they became the very first tourists in Guam. Since then, for 50 years, the island’s tourism industry has continued to develop and the island has now become one of the more popular beach resorts.

# Learn Guam's Culture & Heritage

Guam has been accommodating many school and educational trips, and they are increasing every year because of our great reputation. Hands-on learning activities and programs have been extremely popular in recent years for its efficient learning effects. Here we introduce some of the experience-based programs and why Guam is a popular destination for school/ educational trips.

## Guam for an educational trip? Here is why.

**Point 1**  
**Great access, extremely minor time difference**  
Most countries in Asia and the Pacific have direct flights to/from Guam and they usually only take a couple of hours. This means the flight fare is relatively affordable, and you can use your limited time effectively with an extremely minor time difference.

**Point 2**  
**Closest English-speaking country from Asia and the Pacific**  
As a US territory, Guam is an English-speaking country which is the closest one to most countries in Asia and the Pacific. Students can immerse themselves in an English environment and experience an international culture to stimulate their motivation for learning.

**Point 3**  
**Low cost & and efficient schedule on short durations**  
As mentioned earlier, the travel cost to Guam from the Asia region is lower than going to the US mainland, so it is less travel expense for the parents. Without the major time difference, you can also plan an efficient schedule on short duration of the trip.

**Point 4**  
**Best season all year through**  
Guam has a typical tropical climate all year round with an average temperature of 26°C (79°C). You can swim in the warm ocean in winter and enjoy the summer any time of the year. In June to October, you may encounter a few sudden showers as it falls in the rainy season on the island, but it is nothing too extensive.

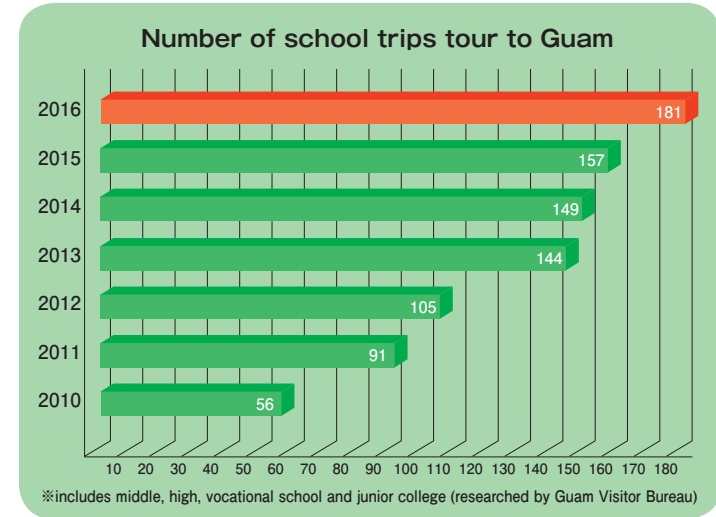

**Point 5**  
**Unique history and culture**  
The island's interesting native culture has adopted many other cultures including Spanish, American and Japanese influences. Students can learn about Guam's interesting historical background and unique culture through some experience-based cultural programs and peace education.

**Point 6**  
**Field Trip through Guam's magnificent nature**

# Hotel Introduction

Guam has an array of hotels that can accommodate group trips. With much experience, hotels deliver excellent services to fulfill your requests and needs. Each hotel can offer unique plans, programs and ideas to help your trip be more successful.

**Hafa Adai!** (“Hello!” / “Welcome!” in Guam’s native Chamorro language)  
The tropical island paradise of Guam is where America’s Day begins! We are America in Asia, being the closest U.S. destination to the Asian continent.  
Our island is well equipped with modern facilities to accommodate MICE travel. Our hotels have also established deep roots for many years, often giving back to help keep the local community safe and our industry thriving. We also recently welcomed a new five star luxury hotel that houses Guam’s first convention center.  
The island’s natural beauty really highlights Guam’s 4,000-year-old Chamorro culture. Our beaches are enchanting. Our water is warm and crystal blue. Our air is clean. Our people are known for their hospitality and friendliness. Our cuisine has found a balance between the influences of eastern and western cultures. Our shopping is tax-free and diverse. With all of these reasons and more, we invite you to explore our island paradise. Discover all of these worthwhile attractions that have drawn over 1.5 million visitors a year.  
Si Yu’os Ma’ase, or thank you, for considering our island home.

Recommended Plan for Group Trip

A poolside party with a tranquil beach scenery is a very popular plan. The magnificent sunset goes down towards the horizon before evening, and afterwards, an illuminated night pool creates a dreamy tropical ambience. We surely offer the best beach resort party, as well as some theme party ideas such as a "Pirates Theme Party". There are also other indoor venues with buffets, self-styled BBQ and much more.

Rent-a-car

If you are over 21-year old and have a driver's license issued in Japan, you can drive in Guam legally without an International Driving Permit. Follow the transportation rule below and enjoy driving safely on Guam!

[Guam's Traffic Regulations]

- Cars are driven on the right side of the road, and the steering wheel is on the left.
- You may turn right when the traffic light is red, too.  
\*If you see a sign, "No Turn on Red" or the traffic light signaling you must turn right, follow the signs and directions.
- Speed indication is in mile, not kilometers. (1mile = about 1.6km)
- Speed limit is 15-25 miles (about 24-40km) per hour in the city, and 35miles (about 56km) per hour in the suburbs. \*Speed limit may be changed without a notice, so please check the signs.)
- The yellow lines on a relatively big road is the "middle lane" which is used to allow for making left turns or merge in to traffic.
- Yellow buses are school buses. You must not pass them when the bus is driving nor when they are stopped on the road. You must stop and wait until the bus starts driving.

[Things to be careful when driving]

<Driving on Marine Corps Drive towards the South>

When you drive on the Marine Corp Drive toward the south to reach Agat, you need to drive from Route 1 to Route 2A then Route 2. After passing Piti, there is a 4-lane intersection (Taco Bell as the landmark). Here drive on the 2 lanes from the left as the other lanes do not lead to Agat.

<Be Cautious>

Roads on Guam, especially in suburb have coral reefs mixed in the asphalt, which may make the road a little slippery when raining. (Especially in the beginning of the rain). For this reason, please maintain enough distance from the car in front of you, and avoid sudden braking, accelerating and steering wheel movement especially during a sudden rain showers.

Shuttle Bus

The main form of transportation on Guam are motor vehicles. Pick-up/drop-off services for Shopping center, taxi, and rent-a-car are great ways to get around the island comfortably. Shuttle buses connecting Tumon, Tamuning and Hagåtña areas are very popular as well as the buses connecting major shopping spots. Transportation from the hotel area to Tumon, Tamuning, Hagåtña is very easy on Guam.

Shuttle Bus tickets are sold at the tour desks located in the hotels, the airport, or ticketing booths at shopping centers, or directly from a driver when you board the bus.  
\*Some tickets may not be purchased from a bus driver  
\*Cash only when purchasing tickets from the bus ticketing booth or drivers.

Taxi

A very convenient way to go to any destination you like on Guam. In Guam, taxies are not usually driving on the road to pick-up customers, so you need to call them by asking at the hotel front desk, restaurant, or shop. Some hotels have taxies that are stationed at the hotel.

[Things to be careful when riding taxies.]

If the fare meter is not set to 0, ask the driver to reset it as it is a law to do so, and show the customer the basic fee. To avoid trouble, make sure to use a taxi with a driver's picture and ID number (registration number), or take notes of the ID number.

[Tips]

Tips for taxi is usually 10-15% of the fare. You can give it to the driver when getting out of the taxi.

Walking

[Things to be careful when walking]

- Always walk against the flow of traffic, so you are more visible to the drivers.
- Avoid dark roads or places where there is not much people around.
- For your safety, avoid walking alone.
- Avoid carrying all your valuables when walking, hold your bag tight and do not face the bag toward the road.
- If anyone tries to steal from you, do not resist. Get as much information as you can and immediately contact the police. Also consult with your hotel or tour agency to take necessary procedures.
- Use a safe at the hotel for passports and important documents
- If crossing the road, use the pedestrian crossing that has a traffic light.
- At traffic crosswalks with a push button, if the icon shows a person walking, you can cross the road, if that is blinking, finish crossing the road as soon as possible, if you see the red hand icon, you must wait.
- When crossing at the intersection, make sure to check if any cars are turning right.
