WHAT IS GUAM SAFE CERTIFIED?

Guam Safe Certified is the official local designation, which identifies establishments that have the utmost compliance, care, and pride in following government health and safety guidelines.

Guam Visitors Bureau (GVB) serves as the official organization to advocate for the implementation of these protocols in Guam and to issue the Guam Safe certification and Safe Travels stamp to local businesses.

WHAT IS THE WTTC SAFE TRAVELS STAMP?

The World Travel & Tourism Council (WTTC) created the first ever global safety and hygiene stamp. This stamp enables travelers to recognize destinations around the world that have adopted standardized health and hygiene protocols.

BENEFITS

- Guam Safe Certified is a branding initiative that endorses your business' health and safety practices at the local level and encourages island pride!
- The Safe Travels initiative is globally recognized & instills a level of confidence in both the tourism trade and international visitors.
- Both initiatives help to rebuild trust among tourists and within the tourism sector.
- Logos can be used on websites, emails, and digital channels can generate business materials, videos, social media campaigns.
- **FREE** of charge to all eligible businesses.

Governor Leon Guerrero Signs EO 2021-07

Governor Leon Guerrero Signs Executive Order No. 2021-07

Today, Governor Lou Leon Guerrero signed Executive Order No. 2021-07 relative to extending the public health emergency declaration for an additional thirty (30) day period to May 1, 2021, and orders such that:

- **GUAM CONTINUES TO BE IN PCOR 3**, during which most activities are permitted to operate under moderate restrictions imposed in an effort to slow the spread of COVID-19 in our community.
- **EFFECTIVE AT 8:00AM ON THURSDAY, APRIL 1, 2021**, indoor dining at eating and drinking establishments shall continue to operate at no more than fifty percent (50%) of the occupancy load, subject to requirements and limitations set forth in applicable DPHSS Guidance, and may now allow up to eight (8) persons to be seated together when dining indoors, with six (6) feet distance between tables. Outdoor dining shall continue to be permitted with no more than fifteen (15) persons per table or per party.
- **EFFECTIVE AT 8:00AM ON THURSDAY, APRIL 1, 2021**, Congregations, or “social gatherings” as meetings for common and singular purposes of more than one (1) person where individuals are not members of a single household shall be limited to no more than fifty (50) persons. The terms “social gathering” and “congregation” are not intended to include meetings of businesses, organizations, or government agencies held for the purpose of carrying out official business of such entities.

Individuals and businesses who fail to comply with applicable DPHSS Guidance Memoranda and Directives may be subject to fines pursuant to 10 G.C.A. §19802 and 26 GAR Chapter 4 Article 28, as well as any other penalties available under Guam law. DPHSS and affected agencies may enforce applicable enforcement statutes and regulations with the assistance of the Guam Police Department.

DPHSS Issues Guidance Memo 2021-10 Relative to Operations Under PCOR3

The Department of Public Health and Social Services (DPHSS) issued [DPHSS Guidance Memo 2021-10](#), relative to restrictions and allowances for business and government operations in accordance with Executive Order No. 2021-07 during the current Pandemic Conditions of Readiness 3 (PCOR 3), which was declared by Executive Order No. 2021-04. DPHSS Guidance Memo 2021-10 permits additional authorized businesses and services to operate at up to 75% occupancy load.

To view DPHSS Guidance Memo 2021-10 in its entirety, click [HERE](#). Written mitigation plans and requests for authorization for operations may be submitted to PCOR3plans@dphss.guam.gov. For more information, contact the DPHSS Division of Environmental Health at 300-9579 from 8 a.m. to 5 p.m., Monday through Friday, or email, dphss-deh@dphss.guam.gov.

FREE COVID-19 VACCINATIONS

at the UOG Fieldhouse, Mangilao

PFIZER-BIONTECH DOSE 1 PFIZER-BIONTECH & MODERNA DOSE 2

TUESDAY, APRIL 6 - SATURDAY, APRIL 10

TUESDAY, APRIL 13 - SATURDAY, APRIL 17

12:00PM - 6:30PM

Residents are advised to schedule an appointment online via Eventbrite. Visit tinyurl.com/vaccinateguapr6-apr17 to schedule and to learn more about eligibility. Those due for their 2nd dose of the vaccine may get their 2nd dose up to four (4) days early.

CATEGORY: Residents 16 years and older.

Minors may only receive the Pfizer-BioNTech COVID-19 vaccine as the Moderna and Johnson & Johnson/Janssen (J & J/Janssen) vaccines are not recommended for individuals below the age of 18 years. Minors must be accompanied by a parent or legal guardian and provide government-issued identification to validate age.

Upon arrival, individuals 60 years and older will be sent to the front of the line.

WHAT TO BRING:

- ✓ IMMUNIZATION CARD (DOSE 2 PATIENTS)
- ✓ PROOF OF GUAM RESIDENCY (GUAM DRIVER'S LICENSE, GUAM ID, GREEN CARD, US, FSM, PALAU, AND RMI PASSPORT)
- ✓ APPOINTMENT CONFIRMATION (DIGITAL OR HARD COPY)

PRE-SCREENING ELIGIBILITY FOR VACCINATIONS

In order to take the COVID-19 vaccine, you must meet the following pre-screening eligibility criteria:

- Must not be currently infected with COVID-19, or previously exposed within the last 14 days
- Must not have received any other vaccine, such as the flu shot, in the last 14 days

*Please note: If this is your first time receiving the COVID-19 vaccine, please make sure you have never taken other COVID-19 vaccine products.

For more information, visit dphss.guam.gov or call 311

Guam Women's Chamber of Commerce Takes Håfa Adai Pledge

The Guam Visitors Bureau (GVB) celebrated the return of the Håfa Adai Pledge program with the Guam Women's Chamber of Commerce (GWCC) taking the pledge on Friday, March 26, 2021, at the Guam Women's Business Center in Hagåtña.

"We thank GVB for this opportunity to be extended to our chamber, our members, and our community to help keep the Hafa Adai spirit alive. This pledge signing falls in line with what the GWCC stands for, which is empowering women, and with that empowerment comes the perpetuation of our culture and heritage and keeping it alive," said Rene Logie, GWCC Executive Director.

"We are excited to become a part of the Håfa Adai Pledge familia and commit to promoting our culture, especially with our upcoming Fanachu Famalao'an, the GWCC's signature event which has been a consistent, impactful milestone for women in business," said GWCC President Laura Nelson Cepeda. "Working together with GVB, we continue to advocate for equality and support for women from all backgrounds. Our CHamoru culture is rooted as a matrilineal society and the Håfa Adai Pledge program is an extension of honoring the women that have shaped our 4,000-year-old history. I want to thank our founders for also sharing this day with us."

In addition to serving as President of GWCC, Nelson Cepeda serves as the chairwoman for the Cultural Heritage, Community Outreach, and Branding Committee at GVB.

GWCC invited its founding members to participate in the signing ceremony and capped off Mes CHamoru with light refreshments for its board members in attendance.

COVID-19 VACCINATION

JAPAN CABINET ANNOUNCEMENT

Benefits of vaccination

- Aim to strengthen the immune system against infectious diseases.
- Boost the recipient's immune response against infections.
- The vaccine has an effect of reducing the risk of the onset of symptoms such as fever or cough by 95%.

Vaccination to be provided free of charge

- The Government intends to enable the public to be vaccinated free of charge including foreign residents.
- The municipality where you reside will send you a notice and voucher shortly before it is your turn to receive the vaccination.

Ensuring the safety of COVID-19 vaccines is our highest priority

- When anaphylaxis or serious symptoms suspected by a doctor to be connected to the vaccination arise, these cases will be reported to the Government and experts will assess the situation.
- The Government is scheduled to conduct a study on health conditions after COVID-19 vaccinations and it will cover around 3 million people in total, including 10 to 20 thousand people.

COVID-19 Vaccination Priority Groups

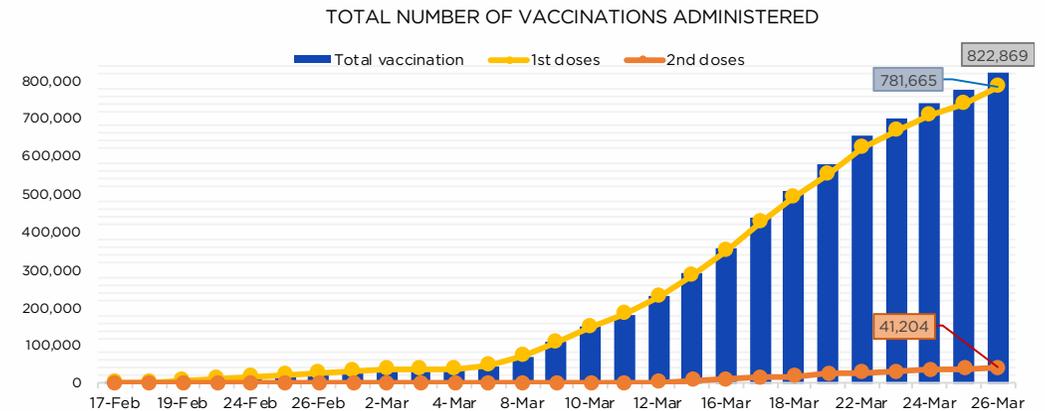

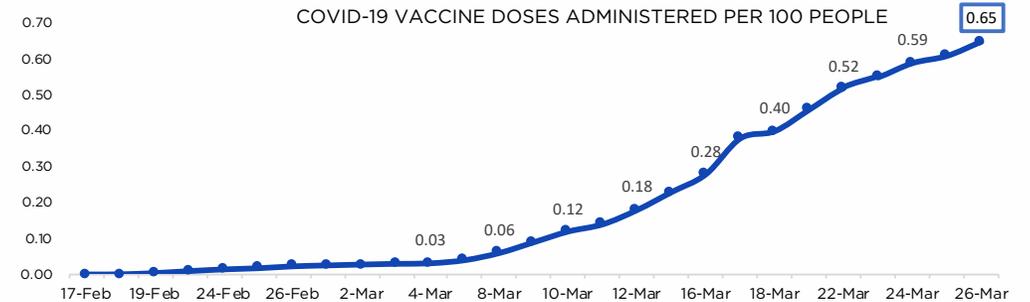

- Health care professionals and others who provide medical treatment for COVID-19 patients and others directly.
- Persons aged 65 or higher.
- Staff who interact directly with people having underlying conditions or users of elderly care facilities.
- Vaccination for the general public aged 16 or higher will commence afterwards.

Side reactions from vaccines

- The frequency of anaphylaxis, an acute allergic reaction to components within the vaccine, has been reported to be approximately five cases per million vaccine recipients in US.
- For vaccines administered in Japan, each vaccine recipient is observed for 15 to 30 minute after the injection is given, and should anaphylaxis occur, necessary treatment will be provided by medical professionals.

VACCINATION UPDATES

As of March 26

Total number of vaccinations:	822,869
1st doses administered:	781,665
Fully vaccinated people:	41,204
Vaccine doses administered per 100 people:	0.65

SOUTH KOREA

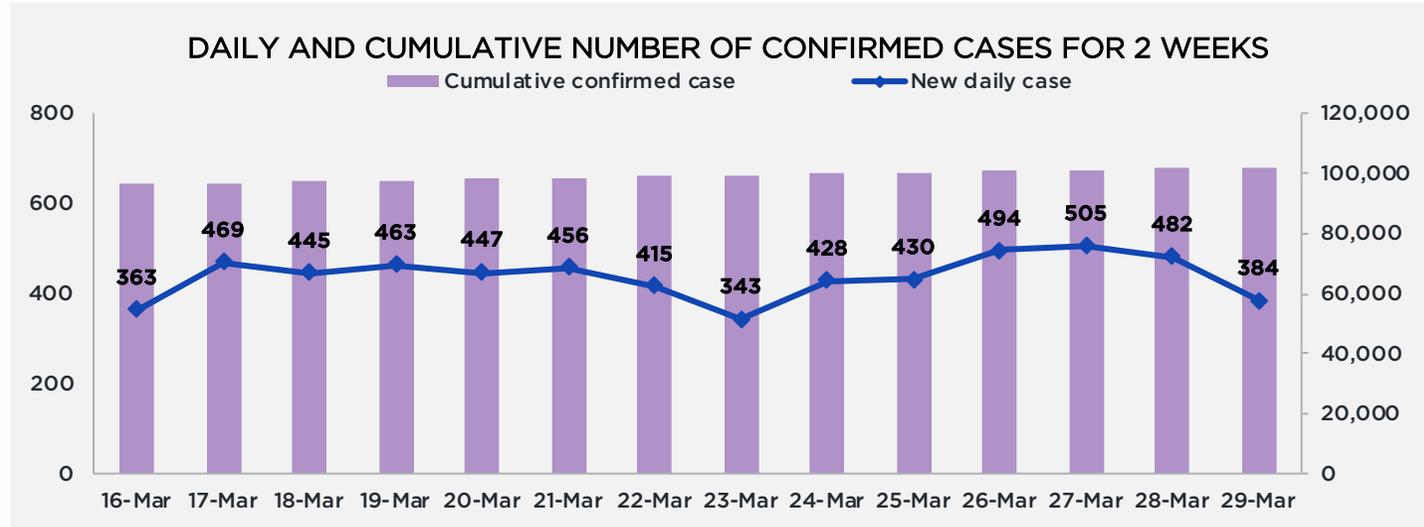

KOREA COVID-19 NEWS

HIGHLIGHT

South Korea's daily new coronavirus cases fell back below 400 on Monday due to fewer tests over the weekend, but health authorities warned of the continued emergence of cluster infections at religious facilities and workplaces.

In South Korea, a third wave of infections, which began in mid-November last year, has shown little signs of slowing down, with the nation reporting daily cases that have hovered around 400 over the past week.

Confirmed COVID-19

CASES: 103,639

6.2% active (6,465)

COVID-10 VACCINATION ADMINISTERED

A panel of South Korean advisers said that a COVID-19 vaccine from Johnson & Johnson was safe and effective, the food and drug safety ministry said on Monday (Mar 29), moving the single-dose shot a step closer to receiving regulatory approval.

When granted a green light, the Johnson & Johnson vaccine will be the third COVID-19 vaccine authorised in South Korea, following ones from AstraZeneca and Pfizer-BioNTech, both of which require two doses.

VACCINATION STATUS FEBRUARY 26, 2021 ~ MARCH 29, 2021

Vaccine Maker	Total Doses Administered	1st Doses Administered	2nd Doses Administered
AstraZeneca	733,586	733,586 (began on Feb 26, 2021)	0 (April, 2021~)
Pfizer	60,380	60,380 (began on Feb 26, 2021)	5,232 (April, 2021~)
Total:	793,966 <i>(1.53% of total population)</i>	793,966	5,232

SOUTH KOREA EASED SOCIAL DISTANCING MEASURE (UNTIL APRIL 11)

Level 1	Level 1.5	Level 2	Level 2.5	Level 3
Sporadic outbreaks	Community transmission begins	Full-blown community transmission	Nationwide epidemic begins	Full-blown nationwide epidemic
<ul style="list-style-type: none"> In-person class attendance capped at 2/3 of student with adjustments allowed Gatherings of over 500 people require prior consultations with local authorities. 	<ul style="list-style-type: none"> Festivals and certain other types of gatherings with over 100 participants banned. Regular worship services allowed with indoor occupancy rate under 30%. 	<ul style="list-style-type: none"> In-person class attendance capped at 1/3 of student. All gatherings of over 100 people banned. Some virus-prone facilities have to suspend business. Restaurants in greater Seoul and outside metropolitan area allowed to serve food until 10 p.m. 	<ul style="list-style-type: none"> In-person class attendance capped at 1/3 of student All gatherings of over 50 people banned. Virus-prone facilities closed business. Restaurants are opened until 9pm, Cafes are only allowed to serve takeout. Public transportation service reduced by 30%. All religious services move online. 	<ul style="list-style-type: none"> All classes move online All gatherings of over 10 people banned. <div style="border: 1px solid black; padding: 5px;"> <ul style="list-style-type: none"> Additional Measure (Jan 3 – Apr 11) Gathering of five (5) or more people are banned. Additional Measure (~Mar 29) Eating at 21 types of mass gathering establishments like sports stadiums, libraries and museums are banned. </div>

The government extended current social distancing measures for another two weeks until April 11. (Seoul metropolitan area: Level 2 / other areas: Level 1.5) Also, gathering of five (5) or more people are banned until the same period, April 11.

VACCINATION STARTS FOR THOSE AGED 65 AND OLDER AT NURSING HOMES, HOSPITALS

- South Korea began vaccinating people aged 65 and older at nursing homes and long-term care hospitals nationwide on March 23.

- More than 370,000 inpatients in the age group, caretakers and medical staff at such facilities are scheduled to get vaccinated.
- Since South Korea began vaccinations on Feb. 26, around 1.3 percent of the country's 52 million population have received their first shots. The country has secured enough coronavirus vaccines to inoculate 79 million people, higher than its population of 51.6 million, with a goal to achieve herd immunity by November.

CURRENT SOCIAL DISTANCING MEASURES TO BE EXTENDED FOR TWO WEEKS

- South Korea will extend its current social distancing measures for another two weeks amid no clear signs of a letup in new COVID-19 cases (as of March 26, 2021).
- The greater Seoul area will remain under Level 2 distancing and the rest of the country will be subject to Level 1.5.
- Bans on gatherings of five or more people and restrictions on small businesses will also remain in place for another two weeks.

GLOBAL ISSUE UPDATE - GENERAL

JAPAN BANS FOREIGN FANS FROM OLYMPIC DUE TO COVID-19 RISKS

- Japan and the International Olympic Committee have decided that the Tokyo Olympics, scheduled in July, will take place without international fans.
- In Japan, where the vaccine rollout has been relatively slow, the population will not be close to fully vaccinated by the time the Games start.

GERMANY TO GO INTO HARD EASTER LOCKDOWN AS COVID-19 INFECTIONS SOAR

- German announced a hard five-day lockdown over Easter, as the country battles a sharp rise in new coronavirus infections.
- Almost all shops will be closed over the Easter period from April 1 to 5, and no more than five people over the age of 14 from two households can gather.
- The country's general lockdown measures will also be extended until April 18.

DELHI HALTS ASTRAZENECA COVID-19 VACCINE EXPORTS AS INFECTIONS SURGE

- India will focus on the domestic vaccination program following a spike in Covid-19 cases and the planned expansion of the immunization drive, and there will be no expansion of vaccine exports.
- The government's priority will be the vaccination of the country's population and they will review the situation related to exports after about two months.

TRAVEL TRADE UPDATE

MARIANA ISLANDS TO PUT SPURS TO VACCINATION

- Mariana Islands, started vaccination in December 2019, is currently conducting a three-stage vaccination program according to the progress of vaccine supply and has entered the second stage as of March 23, 2021.
- By fall, they plan to secure sufficient amount of vaccines and expand vaccinations to children to complete vaccinations for all residents within this year.

CNMI VACCINATION PROGRAM

Phase 1a

Limited Supply

Phase 1b : Persons 50 years and older, workers part of CNMI infrastructure

Phase 2

Additional Supply

Saipan :
Individuals 16 years and older
Rota & Tinian :
Individuals 18 years and older

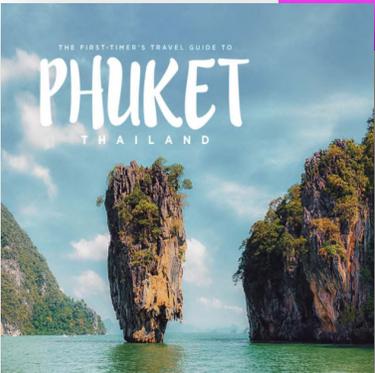

Phase 3

Broad Supply

Anticipating recommended vaccine for school aged-children

TRAVEL TRADE UPDATE

THAILAND TO WAIVE QUARANTINE FOR VACCINATED VISITORS FROM JULY 1

Thailand will waive quarantine requirements for vaccinated visitors arriving on the resort island of Phuket from July 1.

Part of the plan to institute what is being called a “tourism sandbox” involves inoculating at 70% of Phuket’s residents before the July reopening. The inoculations are expected to begin in April.

If all goes smoothly, Thailand expect that around 100,000 tourists can be welcomed in the third quarter of the year.

Must bring COVID-19 negative test result taken within 72 hours before departure.

April 1 -

- Shortening quarantine period for arrivals from to 10 days from 14 days

April ~ June

- Shortening quarantine period for fully vaccinated foreigners to 7 day from 10 day

July ~

- No quarantine for fully vaccinated foreigners (only Phuket)

Oct - Dec

- No quarantine for fully vaccinated foreigners
- Expand to other regions aside from Phuket

THAILAND QUARANTINE

THAILAND LAUNCHES YACHT QUARANTINE FOR TOURISTS

Thailand’s yacht quarantine program will allow visitors with a negative COVID-19 test to spend their time on board in a yacht or small cruise ship in Phuket.

The expanded project endeavors to build confidence in the Thai public health sector and create additional arrival and revenue streams for Phuket tourism operators as the destination gradually reopens to more international visitors.

QUARANTINE SCHEME

1. COVID-19 test by Thai authorities
2. 14-days of Yacht quarantine, wearing a digital health tracker at all times
 - ✓ Pulse, blood pressure and body temperature will be monitored by medical officials in real time
 - ✓ Remain within 10 kilometers of the shore
3. Analysis of health data by officials
4. Allowed to disembark in Phuket

TAIWAN

FOUR NEW SERIOUS ADVERSE EVENTS REPORTED IN VACCINE RECIPIENTS

Thirteen new adverse events, including four serious ones, have been reported among the over 9,200 people who had received their first dose of the AstraZeneca COVID-19 vaccine in Taiwan, as of Friday, according to the Central Epidemic Command Center (CECC).

Taiwan has seen a total of 27 adverse events, including the newly reported 13 cases, since the roll-out of the COVID-19 vaccination began on Monday, CECC official Lo said Saturday.

This was the first time the CECC has reported serious adverse events since a nurse in New Taipei became the first person to experience a severe reaction after receiving the vaccine on Wednesday.

Among the four newly reported serious adverse events, two of the recipients are under observation in hospital because they suffered a fever and shortness of breath, according to Lo.

COVID-19 ANTIBODY DETECTION KIT GRANTED EMERGENCY USE AUTHORIZATION

A rapid COVID-19 antibody detection kit developed by researchers at Chang Gung University (CGU) recently received an emergency use authorization (EUA), paving the way for mass production, the university announced on Thursday.

The test kit, which was jointly developed along with Chang Gung Memorial Hospital, was authorized for use by Taiwan's Food and Drug Administration (FDA) on March 5, the university said in a statement.

According to the university, the kit uses samples of blood serum to measure the potency of neutralizing antibodies in a person who has been vaccinated against COVID-19 and can produce results with 90 percent accuracy in 1.5 hours.

Confirmed COVID-19

CASES: 1,030

3.8% active (39)

UPDATES ON TRAVEL BUBBLE WITH PALAU

- Palauan President Surangel Whipps Jr arrived in Taiwan afternoon on Sunday (3/28) for a five-day visit to promote tourism to his country, becoming the first head of state to visit the nation since the COVID-19 pandemic began last year.
- The visit also came as a COVID-19 “travel bubble” is to form between Taiwan and Palau, with the first tour group to depart from Taipei on Thursday.
- CDC Deputy Director-General Chuang, the spokesman of the Central Epidemic Command Center (CECC), said the delegation provided negative polymerase chain reaction (PCR) test results from within three days of boarding their flight, so they did not need testing after landing.
- The CECC has also suggested that they wear masks at all times, practice social distancing, record all their close contacts, and avoid contact with local residents, he said, adding that their traffic routes have been planned out in advance and Ministry of Foreign Affairs staff would accompany them throughout the visit.
- They would receive a PCR test before leaving Taiwan, Chuang added.

Short-term business travelers eligible for shortened quarantine periods in Taiwan, except for those who have obtained permission for their application, are now required to complete the 14-day home quarantine.

The latest list of the risk categories for countries/regions is as follows:

Low-risk countries/regions:

New Zealand, Macao, Palau, Fiji, Brunei, Laos, Nauru, the Marshall Islands, Bhutan, Australia, **Singapore**, and **Vietnam**

Medium-risk countries/regions:

Cambodia, Hong Kong, and Mauritius

CECC MEASURES FOR FOLLOWING UP ON PERSONS AT RISK OF INFECTION

CECC Measures for Following Up on Persons at Risk of Infection				1.10.2021
Intervention	Home Isolation	Home Quarantine	Enhanced self-health management	Self-health management
Groups of persons	Persons who had contact with confirmed cases	People with travel history	Those who have applied and obtained the permission to shorten their home quarantine period	Group 1: Reported cases subsequently tested negative Group 2: Those who have completed their home quarantine or isolation period. Group 3: Those who have completed their enhanced self-management period.
Responsible authorities	Local health authorities	Local civil affairs bureau or borough chief	Relevant central competent authorities	Central/Local health authorities
Enforcement	Home isolation for 14 days Active monitoring twice a day	Home quarantine for 14 days Active monitoring once or twice a day	Random daily audit will be conducted from the end of the shortened home quarantine period to the 14th day after entry into Taiwan	Group 1: Self-health management for 14 days Groups 2-3: Self-health management for 7 days
Notes concerning respective measures	<ul style="list-style-type: none"> Health authority will issue a "Home (Self) Isolation Notice" Health authority shall check health status of the individual twice a day During the home isolation period, the individual is to stay at home (or designated location) and not go out, and may not leave the country or use public transportation Symptomatic individuals will be sent to the hospital for medical attention Individuals not adhering to the CECC's prevention measures will be penalized under the Communicable Disease Control Act and be forcibly placed After the home isolation period ends, the individual should conduct an additional 7-day period of self-health management 	<ul style="list-style-type: none"> Where the relevant authority has issued a Novel Coronavirus Health Declaration and Home Quarantine Notice, the individual is to wear a surgical mask and return home for home quarantine The local borough chief or borough clerk shall call the individual every day during the 14-day period to ask about the individual's health status, and shall record the information obtained During the quarantine period, the individual is to stay at home (or designated location) and not go out, and may not leave the country or use public transportation Symptomatic individuals will be sent to designated medical facilities for tests; the relevant health authority will also begin active monitoring Individuals not adhering to the CECC's prevention measures will be penalized under the Communicable Disease Control Act and be forcibly placed After the home quarantine period ends, the individual should conduct an additional 7-day period of self-health management 	<ul style="list-style-type: none"> The individual is only allowed to carry out <u>limited business activities</u> and is prohibited from going to crowded places (such as markets, nightclubs, night markets, department stores, restaurants, tourist destinations, etc.). The individual shall postpone all non-essential or non-urgent medical care or examinations; and make sure to inform the physician of travel history when seeking medical attention. The individual must visit leisure facilities in the quarantine hotel at staggered times to avoid contact with others; and notify quarantine hotel staff to conduct environmental disinfection after leaving those facilities. The individual must be picked up and accompanied by a designated person throughout the stay in Taiwan to ensure that protective measures are followed. A record must be kept of the individual's daily activities and the names of people he or she comes into contact with. The individual <u>must not come into contact with anyone except the persons scheduled to meet according to the itinerary; the individual must wear a medical mask and maintain social distance all the time.</u> The individual must <u>reply to daily text messages</u> requesting an update on personal health status from the competent health authority. 	<ul style="list-style-type: none"> Asymptomatic individuals can resume their normal activities. However, individuals should avoid going to places where social distancing may be difficult, where they may come into close contact with random people, or public settings where face mask wearing is not mandatory, and non-urgent medical appointments or check-ups should be rescheduled. When going out, a medical face mask must be worn at all times. Frequent hand-washing, respiratory hygiene, and cough etiquette should also be followed. Body temperature should be measured twice a day in the morning and evening. Individuals with fever or respiratory symptoms such as coughing or running nose are to wear a medical mask, seek medical attention immediately and not to use public transport; inform the physician of your contact history, travel history, and whether anyone else has similar symptoms; wear a surgical mask while returning home and avoid going out; and keep 1 meter away from others when talking to them. After being tested for COVID-19 and returning home, individuals are to stay at home and not to go out before receiving results Medical personnel are to halt work and not to come to work temporarily
